

Seamless Azure Subscription Migration Across Tenants: Expert Consulting for Hassle-Free Transitions

Summary:

Seamlessly migrate your Azure subscriptions from one tenant to another tenant with minimal downtime and disruption.

Overview

Our Tenant-to-Tenant Subscription Migration Service provides a streamlined solution for organizations looking to transfer Azure subscriptions between tenants. Whether you're undergoing a merger, acquisition, or organizational restructuring, our service ensures a smooth transition with comprehensive support and minimal downtime.

Challenges Addressed by Our Offering

Azure Linux OS Disk Decryption:

While Microsoft documentation states that Linux OS managed disks cannot be decrypted, our solution effectively addresses this issue with minimal downtime.

Downtime:

Through comprehensive manual and automated assessments of the environment, our migration process ensures no or minimal downtime.

Unauthorized Access:

Our solution ensures that only authorized users have access to resources by working on securely managing key access.

Migrating Non-Recoverable Resources:

We support the migration of non-recoverable resources, such as Microsoft Entra authentication-enabled Azure SQL and MySQL databases and Azure Policy, which Microsoft indicates cannot be recovered once moved.

Re-creating Resources:

Our offering can also re-create resources which can't be moved in Tenant-to-Tenant migration like Microsoft Entra Domain Services, Azure Service Fabric, Databricks, Microsoft Dev Box, Azure Deployment Environments, and Azure Kubernetes Service.

Azure Impacted Resources:

We support the migration of impacted resources, including Role Assignments, Custom Roles, User and System Managed Identities, Key Vault, Data Lake Gen 1 and Gen 2 storage, Files, File Sync, App Registrations, Azure Service Bus, Synapse Workspace, and Compute Gallery.

Key Features

Automated Migration: Our service automates the migration process, reducing manual effort and the risk of errors.

Comprehensive Support: Our team provides end-to-end support, from planning and execution to post-migration assistance.

Flexible Scenarios: Supports a wide range of migration scenarios, including billing, resource groups, and access controls.

Pricing

Choose from various pricing plans to suit your needs, including pay-as-you-go and enterprise options. Contact our sales team for a custom quote.

Why Choose Us?

- 1 Proven Expertise**

Our team has extensive experience in Azure Subscription migrations, ensuring a successful transition.
- 2 Tailored Solutions**

We customize our services to meet your unique requirements and migration needs.
- 3 Commitment to Success**

We're dedicated to your satisfaction and will support you every step of the way.
