

# JOURNEY TO THE CLOUD BY FAR

## – BASED ON CLOUD ADOPTION FRAMEWORK

Cygate provides a methodology called FAR which is a governance platform based on Cloud Adoption Framework from Microsoft. With a proven methodology, we guide you through the process of creating a Landing Zone for your existing or future workloads in Azure.

This will provide a baseline of best practices, documentation, choice of tools for different stakeholders like: Architects, IT Professionals and decision makers so you as a customer will achieve short and long-term business plans.

EXAMPLE OF OUR SERVICES THAT CAN BE OFFERED AS A RESULT OF A FRAMEWORK ARE THE FOLLOWING:

<p><b>Cloud Governance</b> Strategy, operations, etc and plans for efficient public cloud usage</p>	<p><b>Financial Governance</b> Cloud Capacity; consolidated billing, cost allocation and optimization</p>
<p><b>Technical Governance</b> Core Infrastructure &amp; Security; building solid landing zone for application cloud</p>	<p><b>Cloud Migrations</b> Cloud Migrations; migrating and modernizing applications to public cloud</p>
<p><b>Operational Governance</b> Example of Managed Services; 24/7 services for customers public cloud environments</p>
