MICROSOFT 365 HEALTHCHECK – HOW IT'S DONE

Kickoff meeting and preliminary data collection

HealthCheck analysis by an expert

Based on the analysis, the specialist reports the areas of improvement

Revision of the results with the customer and delivery of the report.

The expert studies the customer's environment independently and analyses the state of the M365 environment.

The expert reviews the results with the customer and suggests improvements. A comprehensive report on the results will be delivered.

The M365 HealthCheck requires approximately 2 hours
of the customer's time. The interval between the kickoff meeting and the delivery of results is approximately 5 business days.

Price of a HealthCheck: **€1000** (VAT 0%)

WHAT DO WE CHECK?

As part of M365 HealthCheck, we generally review about

**90**

different settings, and we also go through reporting data.
