

# Email signature management built for enterprises

Every email signature is an opportunity. Now you can easily manage company-wide email signatures without sacrificing security.

## Make every email a marketing opportunity

## Key benefits

**On-brand and up to date**  
Finally, no more DIY signatures. Everyone's emails perfectly in line with corporate brand guidelines.

**Scheduled campaigns**  
Easily build and schedule targeted campaigns and track performance without using HTML.

**Take back control**  
Easy maintenance and roll-out of company-wide updates — no the need for tech support.
