

IBM Consulting's Offering for Migrating Oracle Database to Azure

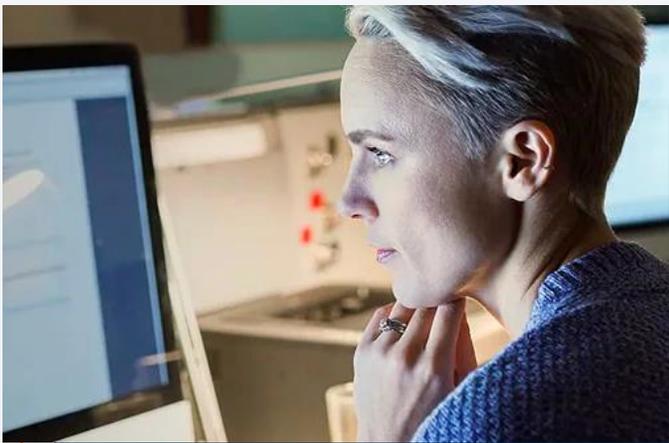

Free one-hour briefing session to connect with IBM Consulting

IBM Consulting is a Trusted Partner for global Azure clients. Across the industries, IBM Consulting differentiates its solutions with our offerings, strong alliance with Microsoft, innovative engagement services and leveraging world's best Azure competencies globally.

For 35 years, Oracle and IBM have been providing customers with joint solutions, combining Oracle's technology and application software with IBM's complementary hardware, software, and services solutions.

The objective of IBM Consulting's briefing session is to share with you more about:

- How to migrate your Oracle Databases to Azure faster and cheaper?
- What are the various options available in the migration?
- To know more about rapid discovery and assessment program.
- Lesson learnt from migrating thousands of Oracle Workloads to Cloud.
- Insights on how to optimize your spend.

IBM Consulting Oracle Database@Azure helps you accelerate your Oracle Database Migration to Azure

The recent announcement of Oracle Database@Azure is a new offering that delivers Oracle database services running on Oracle Cloud Infrastructure (OCI) and deployed in Microsoft Azure data centers. This collaboration provides clients with following benefits:

- **Flexibility:** Flexible infrastructure to run Oracle Databases that provides options to clients scale up and down based on the business need.
- **High Performance:** The Oracle Databases runs best in purpose-built Oracle Cloud Infrastructure deployed in Azure data centers.
- **Integration:** Azure provides seamless integration with surround services such as Microsoft 365, Power BI and Open AI.
- **Security:** Both the application and Oracle Databases are protected by robust azure security.

IBM Consulting's Offering for Migrating Oracle Database to Azure
