edtest.ai

BROWSER LOCKDOWN

Block Access to Other Websites and Applications

Disable Screenshot, Print, and Copy & Paste Functions

Allow Only the Test Window to Appear on the Screen

Remove All Browser Toolbars and Menu Bars

MULTI-FACTOR AUTHENTICATION

Edtest.ai verifies the test-taker's identity using email, geolocation, SMS, and facial & voice recognition to maintain the security and reliability.
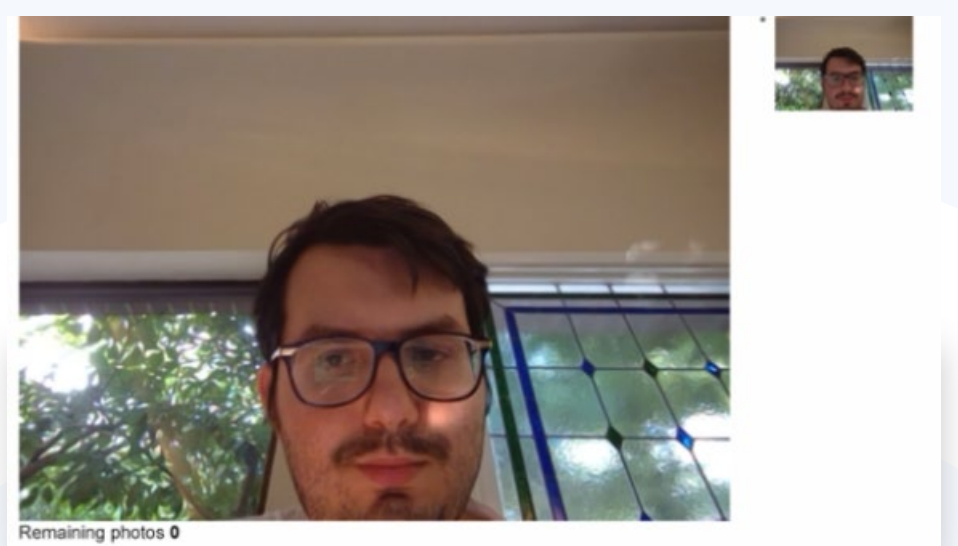

FRAUD DETECTION

Intelligent tracking recognizes books, electronic devices, and notes in the test taker's environment. Unidentified voices or suspicious movements can also be configured to trigger identity re-verification.

REAL-TIME ALERTS

Real-time reporting of environmental anomalies enable institutions to identify problems when they occur, and continuous recording allows for real-time and future auditing of test sessions.
