

Tetrate Istio Subscription

Effortlessly deploy and scale Istio with enterprise-grade support, extended CVE protection, advanced diagnostics, and seamless troubleshooting

[Request a demo](#)

Kubernetes Networking, Simplified

Enterprise-ready Istio

100% upstream, FIPS verified, and break/fix support.

Troubleshoot Faster

Self-service issue resolution for every app developer.

Real-time Insights

Global visibility powered by automatic service discovery.

Avoid lock-in, achieve compliance, and gain insights fast with Tetrate Istio Subscription.

Smarter. Easier. Faster.

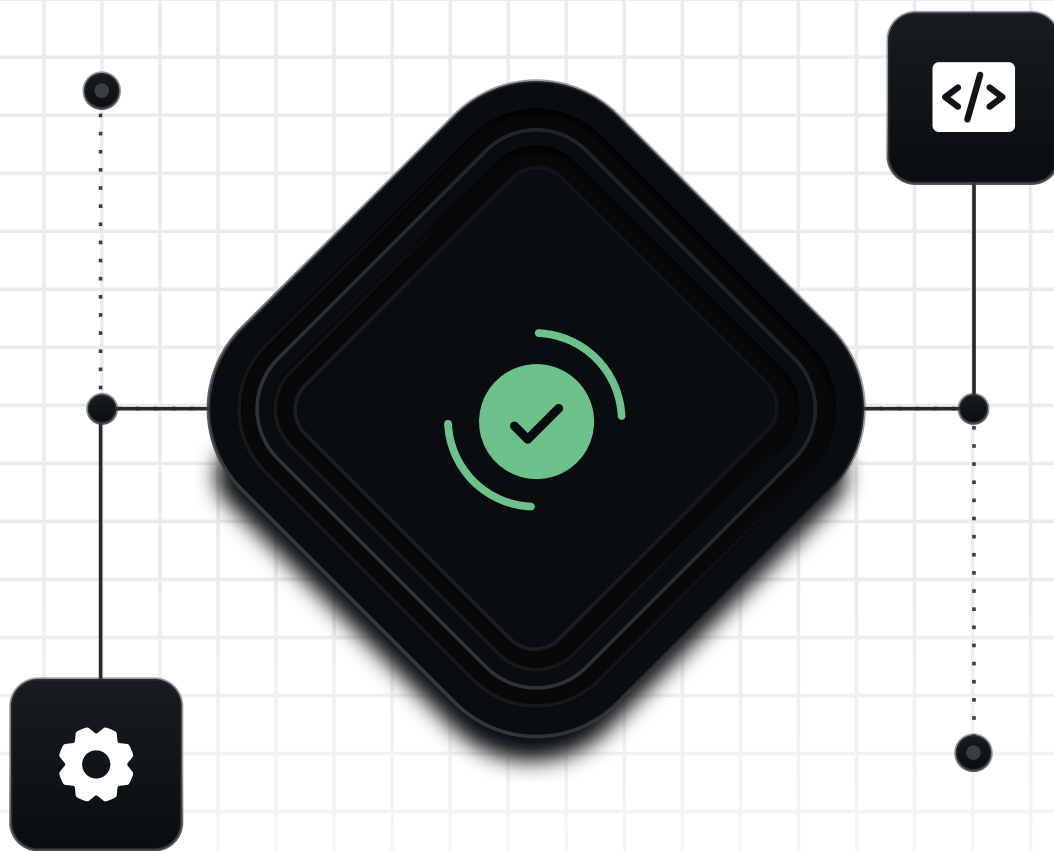

Enterprise Support & Security

Get expert production support, simplified upgrades, and extended CVE protection for enterprise resilience.

Diagnostics & Troubleshooting

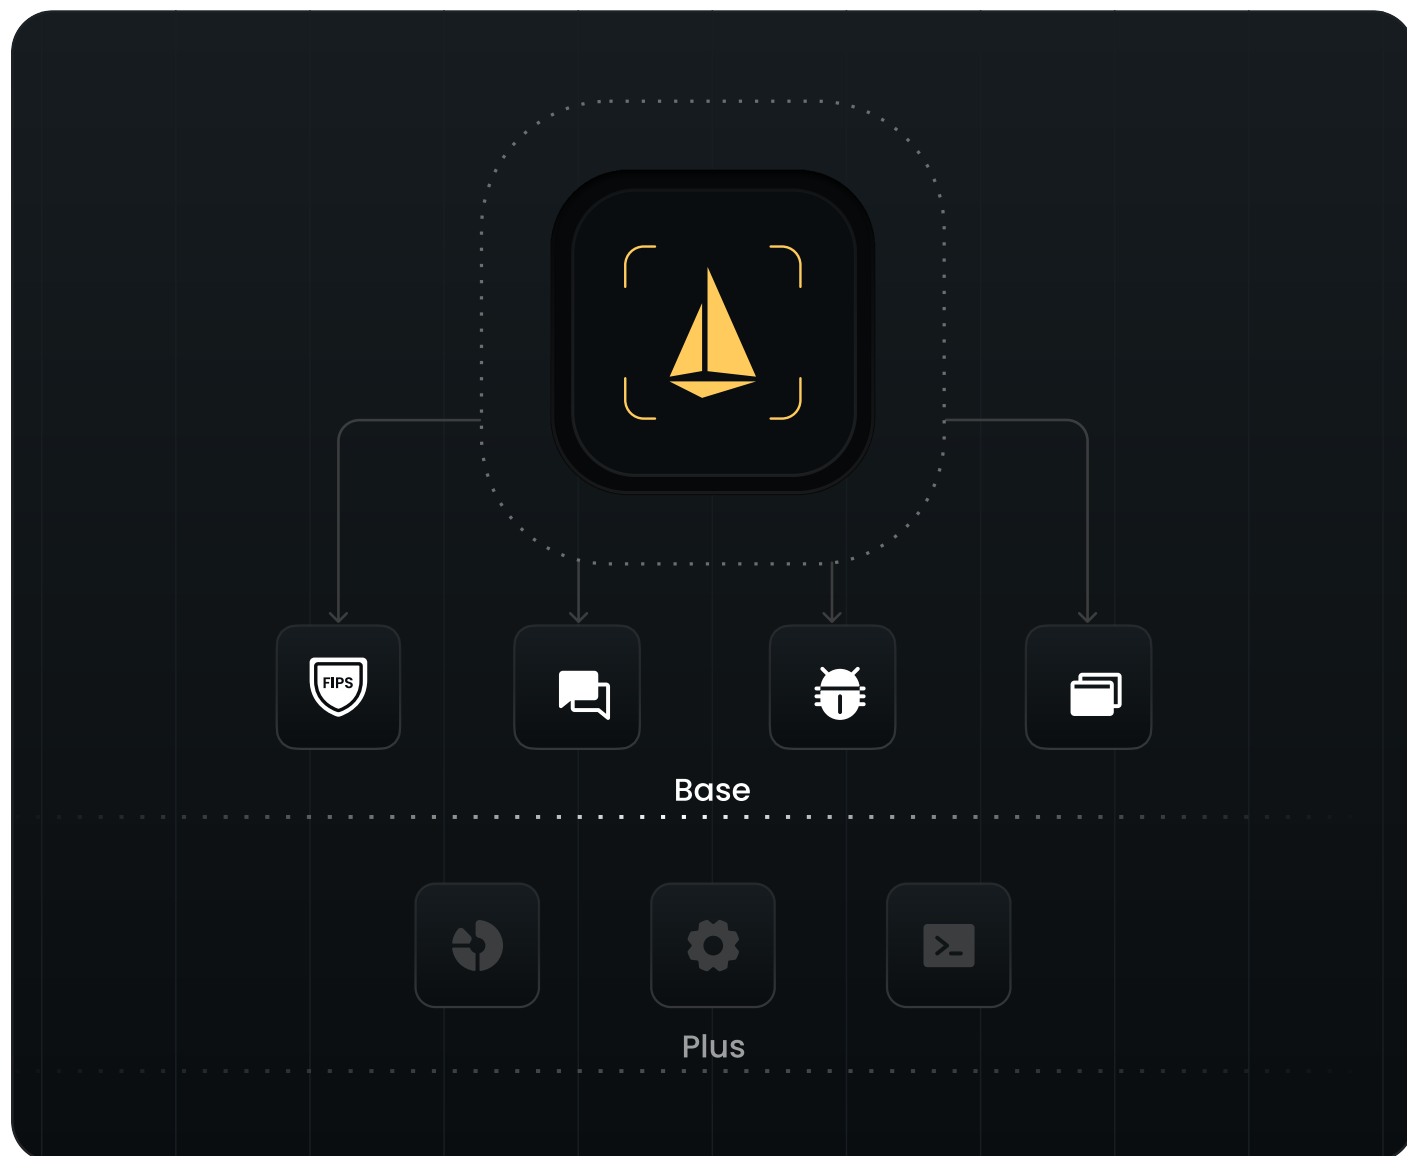

Gain deep insights with aggregated traces, logs, metrics correlation, and historical views.

Automated, Proactive Validation

Automate Istio configuration checks with Tetrate Config Analyzer & GitHub Actions, detecting Istio config issues.

**Explore Tetrate Istio
Subscription**

Tetrate Istio Subscription — Base

Run secure, compliant Istio and Envoy with enterprise support and extended CVE protection.

FIPS-Verified Istio

Instant access to Istio builds using unforked BoringCrypto module.

Expert enterprise production support

And best practices consultation.

Extended CVE protection

75% longer Istio shelf life (14 months total vs. 8 months base).

Tetrate Config Analyzer

Automatically detect Istio configuration issues based on best practices.

Tetrate Istio Subscription — Plus

Improve MTTR with real-time evidence-based issue triage and resolution.

Live status & diagnostic console

Quickly correlate metrics, tracing, logs, and service ownership with time-travel historical view.

Service Inventory & Dependency

Aggregated real time inventory across cloud accounts, regions, on-prem and cloud APIs.

Enable Developer Self Service

Each app team can access a view of their infrastructure safely to troubleshoot, develop, and optimize their own applications.
