# Streamline change delivery

Leverage the power of automation to speed up change delivery. Boost stakeholder confidence in driving change outcomes through analytics.
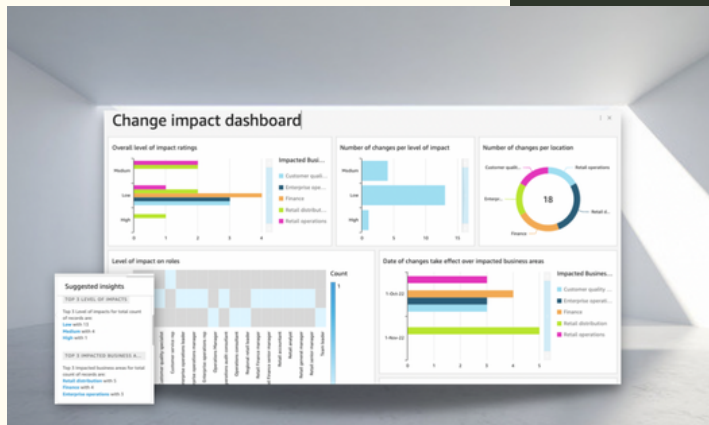

Change Automator

Save weeks of manual work in documenting stakeholder details with automation.

Leverage a range of best practice change templates, such as Change Canvas and Change Scoping. Be rid of tedious manual entry work through automation.
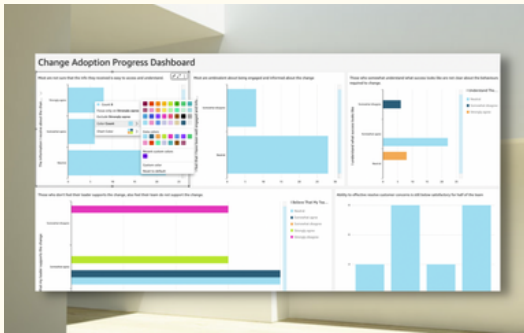

Show ultimate change progress

Easily design your change adoption dashboard to track progress toward targets. Integrate data on change readiness, stakeholder feedback and demonstrable adoption metrics in one view.

Sense-make stakeholder readiness

Deeply understand stakeholder sentiments through tailored surveys capable of prompting conditional follow-up questions to delve into the 'why' of potential resistance.
