What if your business could interact with the knowledge of the internet?

We Are Nimble

NIMBLE

We are here to empower enterprises with direct access to the world's public knowledge.

We provide businesses with realtime, validated and trusted online intelligence that drives smarter and faster decisions.

Our Knowledge Platform integrates public domain knowledge and insights into business applications, driving automation and operational efficiency.

7 million+

Data Sources over past 12 months

>13,000

TB of data collected every month

>45,000

Supported data points

\$45M

Raised since founding in 2021
