Digital Maturity Scan

Understanding the digital maturity of your organization is a crucial step before embarking on any digital transformation program like the introduction of a digital workplace with Microsoft 365!

Gaining insights in the digital maturity of your employees empowers you to:

- ✓ Define a tailor-made adoption approach
- ✓ Identify digital champions in your organization
- ✓ Prioritize initiatives within your workplace program
- ✓ Define targeted learning goals

The Flow helps you to continuously improve daily work

Digital Maturity Scan step by step

Step 1

In a kickoff we identify the scope of the maturity scan and determine the HR dimensions we wish to use in our analysis. (e.g., years of service, department, …)

Step 2

Via a survey, based on the European DigiComp 2.1 framework, we query the employee's digital maturity. The survey takes about 20 minutes to complete.

Step 3

At the close-out meeting, we present our findings. We share insights about the digital maturity in your organization and identify key initiatives to improve user adoption.

What to expect

- ✓ Insights in how Digitally Mature your organization is
- ✓ Survey your employees with the tool of your choice
- ✓ Clear understanding of the DigiComp 2.1 Maturity Model
- ✓ Expert advice in user adoption approach
- ✓ Possible next steps to improve your Digital Maturity

In short, we'll give you insights into your organization's digital maturity, and how you might increase it.
