Vaultedge

Free up time to do what you love

Let Vaultedge AI & OCR automate loan
processing for you.

Mortgage Automation to Close & Board Loans 5x Faster

Vaultedge is the most advanced intelligent automation software that uses AI & OCR to automatically review loan documents, file them into correct folders and cross check the data in the documents with your LOS or mortgage servicing systems.

Mortgage Lenders

Reduce time to close by 14 days.

Loan Processors spend several hours doing a manual stare & compare analysis of loan files. With Vaultedge they can now automatically split a loan package into individual documents, index the documents by type & flag missing pages in just seconds.

Mortgage Servicers

Board loans 5x faster with 99% accuracy.

Vaultedge automatically indexes documents, extracts data and compares it with source data - so that you can board bulk loans efficiently at scale. Using Vaultedge top servicers have reduced manual exception handling by 85%.

Loan Traders & Investors

Reduce due diligence cost by 50%.

Vaultedge helps you reduce due diligence time by 50% & eliminate buy back risks using automated document verification technology.

Our Capabilities

Document Recognition

Vaultedge uses artificial intelligence to automatically identify and split a loan package into individual documents and index the documents by type: 1003, Loan Estimate, Closing Disclosure, Deed of Trust etc.

Data Extraction & Validation

Vaultedge extracts all relevant data from each of the documents in the loan package. Across documents, Vaultedge extracts more than 2000 data points and compares the extracted data across different documents to identify discrepancies.

Exception Handling

Users interact with Vaultedge's easy-to-use UI, to verify indexed documents and extracted data. Users can rearrange the misplaced pages or update incorrect data at the click of a button.

"We used Vaultedge to automate indexing of more than million documents every month. This enabled us to move 70% of people from Document Recognition to other processes."

- Head of Servicing (Top Mortgage Servicer)
