

AUTOMATE YOUR MICROSOFT CSP BILLING

This is CSP Billing is a revolutionary solution designed to streamline and automate the recurring invoicing process for **Microsoft Azure** and **Microsoft 365** monthly billing.

By integrating seamlessly into your accounting system, this product eliminates the need for manual processing of invoicing data,

ensuring that no newly added licenses are missed during the month.

It enhances the productivity of your finance department by comparing previous invoices to the current month, alerting you to any reductions or increases in spend.

Additionally, it offers robust features for:

- credit checks,
- risk assessments, and
- protection against defaulting clients.

OUR CONTACT

This is CSP Billing is a product developed by This is the Way Solutions. The product's development and fine-tuning took more than 12 months to ensure it addressed concerns Microsoft Indirect Cloud Solutions Providers have around their invoicing of CSP products.

THIS IS CSP BILLING

CSP BILLING AUTOMATION

EFFICIENT, ACCURATE AND SECURE
BILLING MANAGEMENT SOFTWARE FOR
MICROSOFT INDIRECT CSP RESELLERS

01.

IDEAL USERS

This is CSP Billing is perfect for Microsoft Indirect CSP resellers and will assist the sales and finance departments that manage Microsoft Azure and Microsoft 365 subscriptions.

It is particularly beneficial for:

- **Finance Teams:** Looking to improve efficiency and accuracy in billing processes.
- **Sales Departments:** Needing reliable tools for credit checks and risk assessments.
- **Businesses:** Aiming to protect against financial risks associated with defaulting clients.

02.

PAIN POINT AND NEEDS

- **Manual Processing:** Say goodbye to the tedious task of manually processing recurring invoices. This is CSP Billing automates the entire process, saving time and reducing errors.
- **Missed Licenses:** Never miss a newly added license again. The system ensures all changes are captured and billed accurately.

- **Productivity:** Boost your finance department's productivity by automating repetitive tasks and focusing on strategic financial management.

- **Spend Alerts:** Stay informed with automatic alerts on any changes in spending, helping you manage budgets more effectively.

- **Credit Checks and Risk Assessments:** Conduct thorough credit checks and risk assessments to safeguard your business against potential defaults.

- **Financial Protection:** Protect your organization from the financial impact of defaulting clients with proactive risk management features.

YES
