Microsoft Partner

2021/2022
INNERCIRCLE
for Microsoft Business Applications

www.tisski.com

Engagement Overview

- Take part in personalised workshops with a member of the Tiscki team, exploring Microsoft technology and the ways it can help improve processes across your organisation
- Receive a tailored roadmap that details the technology best placed to help you achieve your key goals
- Understand the impact Microsoft technology can have and the value your organisation will gain in return, before making a significant financial investment
- With some Microsoft funding available, you may be eligible for a funded Catalyst engagement, and can contact the Tiscki team to check your eligibility

Key Benefits

- A Business Value Assessment gives the opportunity to gather all key stakeholders and decision-makers together to define key objectives and desired outcomes, making sure everyone involved is on the same page
- With help from a Microsoft Gold Partner, you'll gain expert guidance on the technology best placed to help your organisation achieve those key objectives
- A detailed document provided at the end of the engagement will give a clear plan with the steps you need to take to adopt your new technology and start delivering a real impact across your business – and the BVA gives you the chance to meet the people who can support you with planning, through to implementation and beyond

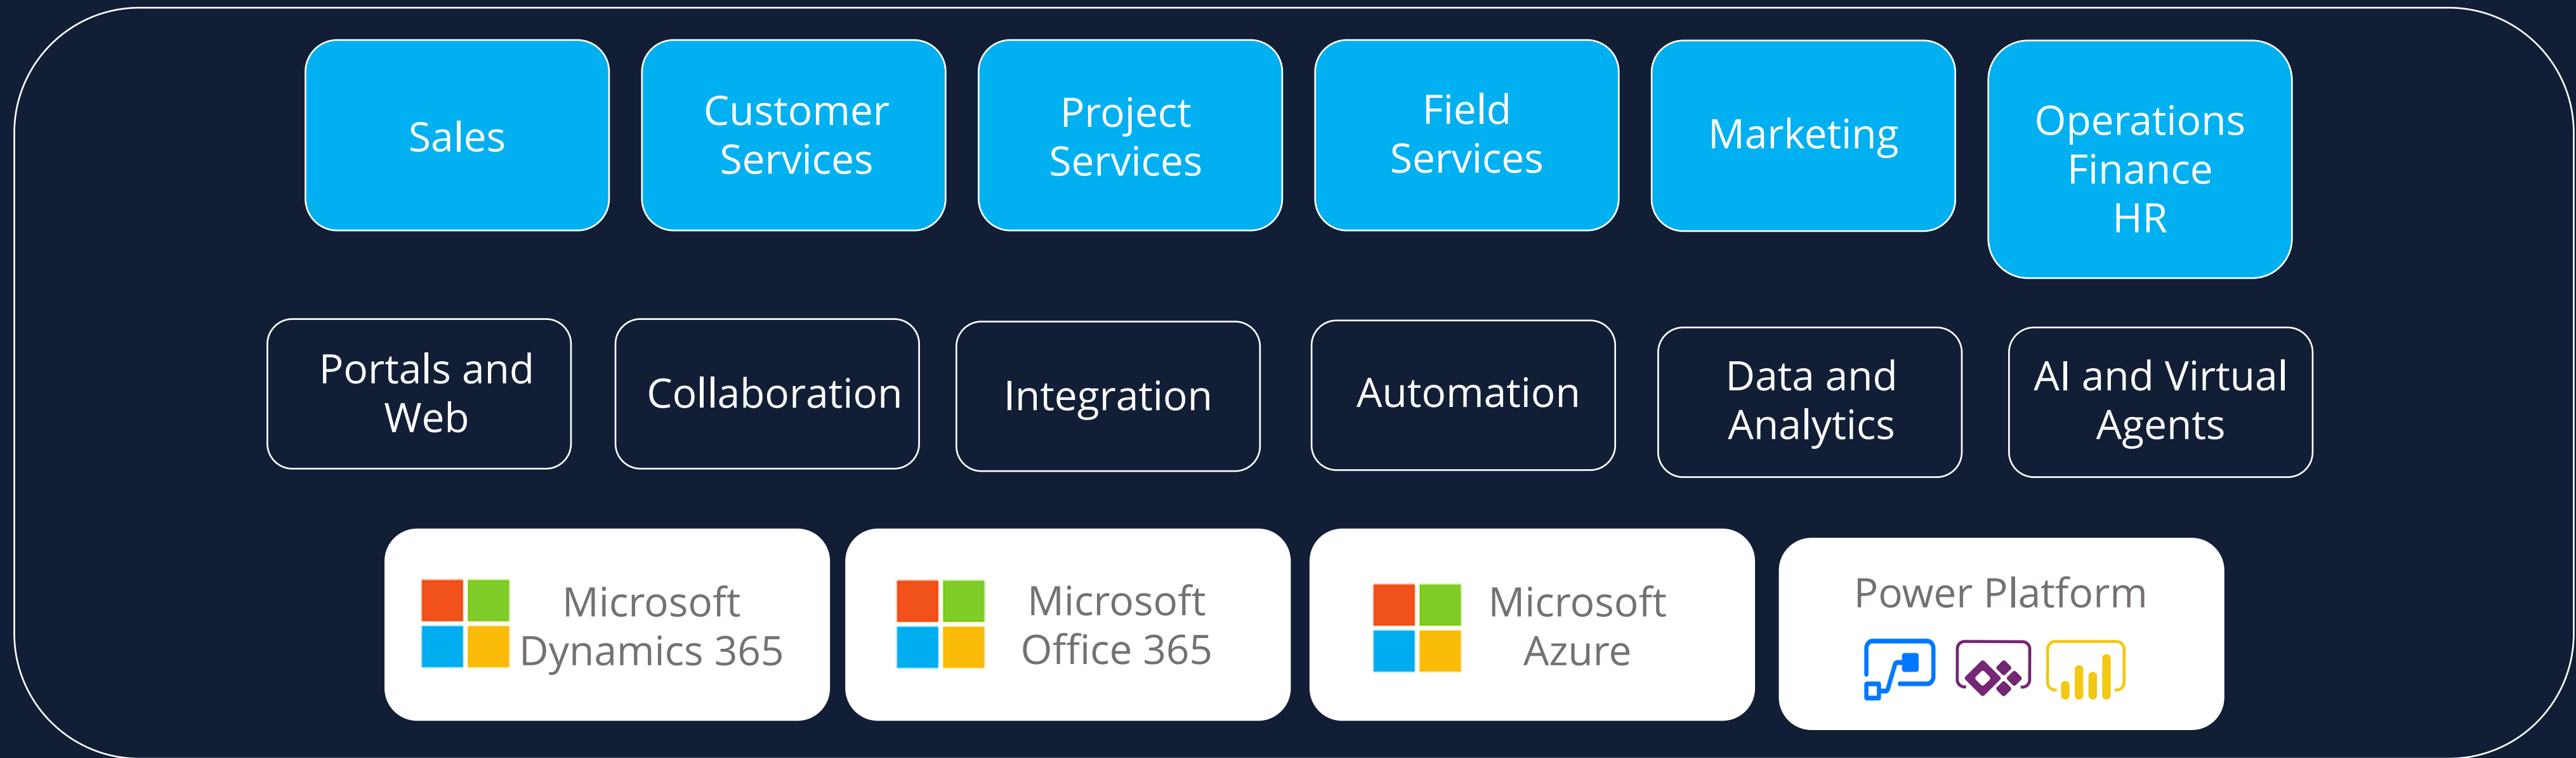

About Tisski
