# Microsoft ERP Business Value Assessment (BVA)

tisski

Gold  
Microsoft Partner  

2021/2022  
INNERCIRCLE  
for Microsoft Business Applications

[www.tisski.com](http://www.tisski.com)

# Engagement Overview

- Take part in personalised workshops with a member of Tisski's dedicated enterprise resource planning (ERP) team, exploring Microsoft Dynamics 365 Finance and supporting technologies, and the ways they can help improve finance processes across your organisation
- Receive a tailored roadmap that details the steps needed to take to adopt Microsoft ERP technology – and the multiple benefits it can bring
- Understand the impact Microsoft ERP technology can have and the value your organisation will gain in return, before making a significant financial investment
- With some Microsoft funding available, you may be eligible for a funded Catalyst engagement, and can contact the Tisski team to check your eligibility

# Key Benefits

- An ERP Business Value Assessment gives the opportunity to gather all key stakeholders and decision-makers together to define key objectives and desired outcomes, making sure everyone involved is on the same page before you move forwards
- With help from a Microsoft Gold Partner, you'll gain expert guidance on the ERP technology best placed to help your organisation achieve those key objectives
- A detailed document provided at the end of the engagement will give a clear plan with the steps you need to take to adopt your new technology and start delivering a real impact across your business – and the ERP BVA gives you the chance to meet the people who can support you with planning, through to implementation and beyond

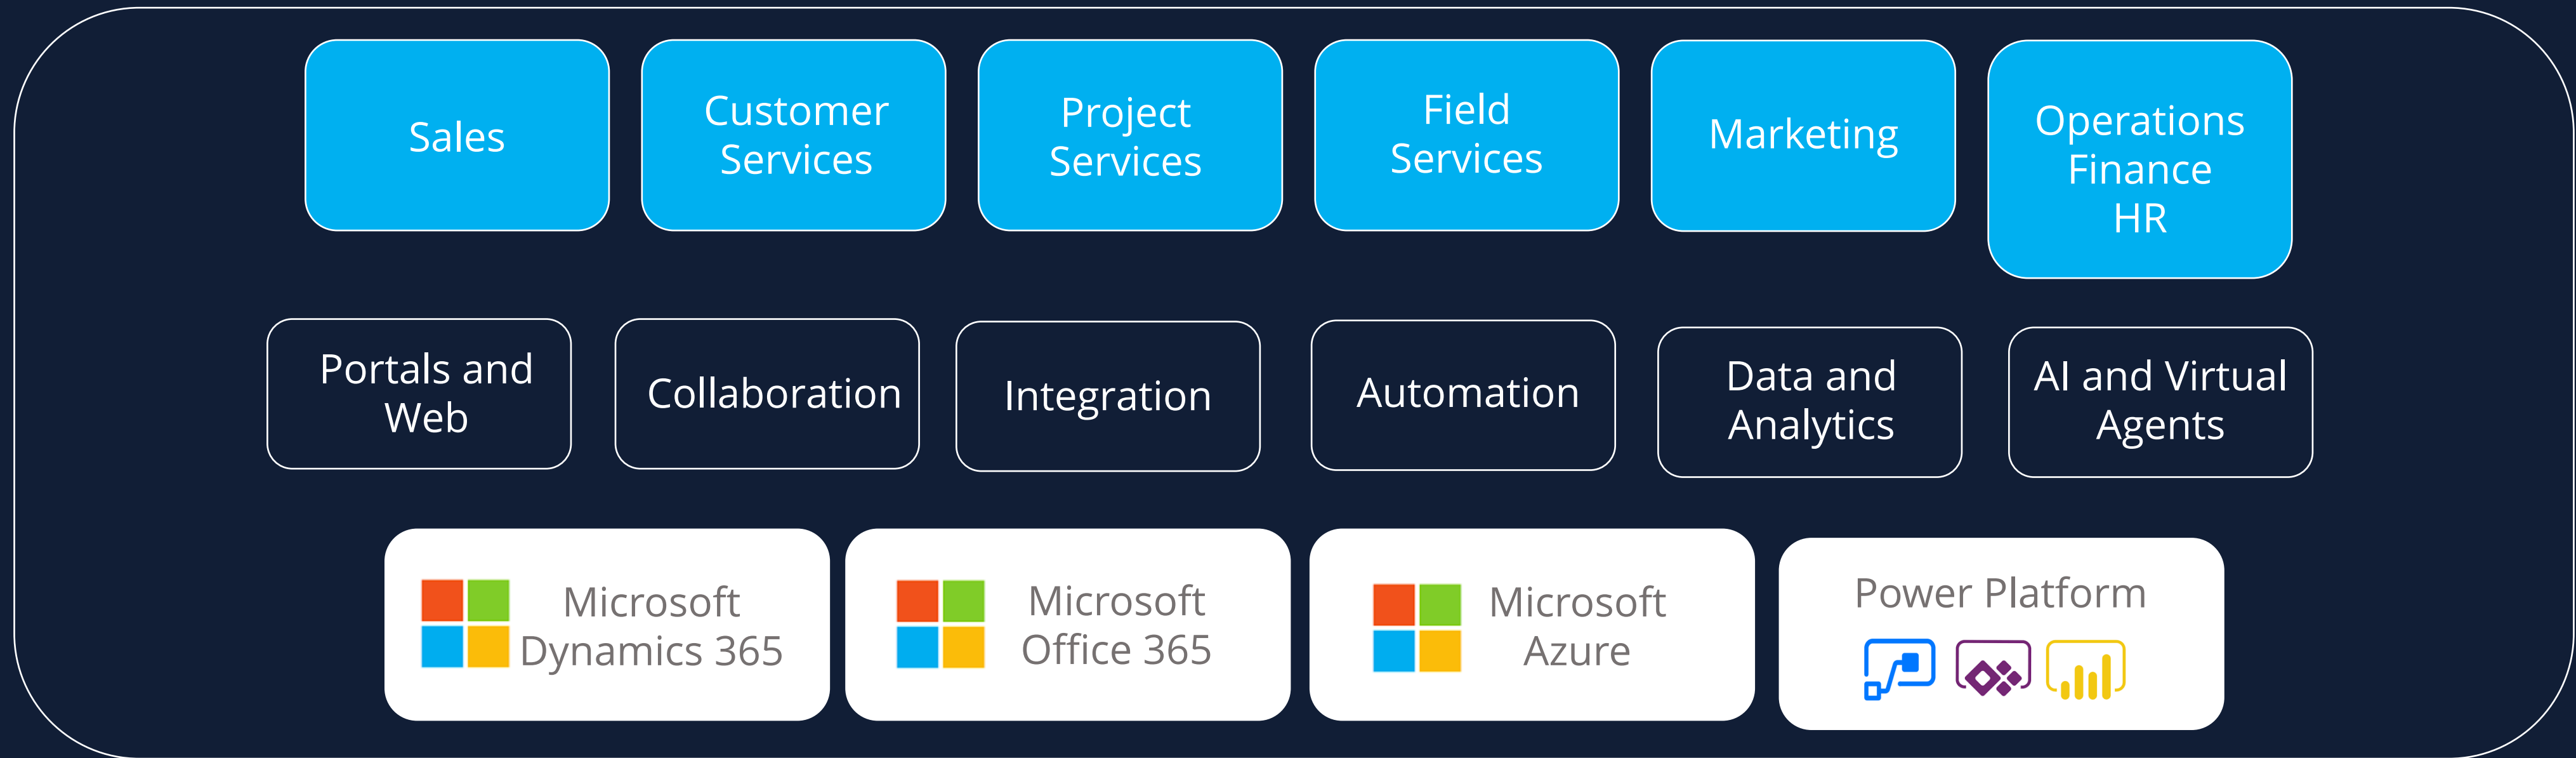

# About Tiscki
