cloudine

With Cloudine from Fourtop ICT we make collaboration continuously fun and easy through the smart use of Microsoft 365!

For organizations that want a secure, fun, and user-friendly working environment in in the cloud, we offer our Microsoft 365 and Azure-based workspace Cloudine. Cloudine ensures high security and control over the complete ICT environment, while also helping users to work effectively in the cloud through continuous adoption of new Microsoft features. Organizations and ICT can develop together as a team, always ready to adapt new ICT developments which help them to work fun, easy and secure - ready for every challenge!

Cloudine allows Fourtop and its customers to develop together as a team, accentuating each organization's strengths and ensuring that they're always ready to adapt new ICT developments.

We plan along with our clients, making their ICT ready for the challenges of the future.
