

Merchandise Planning Platform for Retailers

Toolio automates merchandising, provides real-time insights, and enables cloud-based collaboration. We empower your team to make faster, data-driven decisions about your most important (and expensive) asset—inventory.

1. Forecast Demand

- Leverage AI / ML to accurately forecast demand
- Anticipate True Demand, accounting for promotions and shortages.

2. Plan Supply

- Automate replenishment to reduce out-of-stocks and improve turn.
- Maintain full visibility of your Open-to-Buy.

3. Allocate Inventory

- Automatically transfer inventory to where it delivers highest margin.
- Manage and respect store capacity constraints and presentation requirements

ACHIEVE ROI IN AS LITTLE AS 3-6 MONTHS
