ABOUT CLAIMS MANAGEMENT SYSTEM

The Claims Management System is designed to simplify and optimize the way organizations process claims across various categories. Powered by Power Apps, Power Automate, and SharePoint, the system ensures seamless workflows, centralized data access, and efficient handling of claims.

Benefits of the System

Why This System is Your Ultimate Claims Management Solution:

Enhanced Efficiency:

Automates repetitive tasks and approvals, saving time and resources.

Centralized Access

All claims data and policies are stored in SharePoint for quick retrieval and compliance.

Automated Email Notifications

Automated emails for submissions, approvals, rejections, and returned claims to keep stakeholders informed.

Improved Accuracy

Minimizes errors by integrating with reliable data sources

Real-Time Insights

Dashboards and reports provide visibility into claims status and trends

Three-Level Approvals

The workflow includes approvals at User, Reporting Manager, and HR levels for comprehensive claim validation.

Key Features of the Claims Management System

1

Comprehensive Data Handling

Centralized access to claims-related data using SharePoint.

Integration of structured and unstructured data for improved decision-making

2

Automated Workflows

Leveraging Power Automate to streamline processes like approvals, notifications, and verifications.

Reduces manual errors and speeds up processing

3

User-Friendly Interface

Built with Power Apps, the system offers an intuitive, customizable interface for submitting, tracking, and managing claims

4

Customizable and Scalable

Tailored workflows to fit organizational policies and specific claims categories.

Scalable to accommodate growing claims volumes and new business needs

Transforming Claims Management Across Industries

Healthcare
Simplifies reimbursement processes for patient claims

Transport and Logistics
Streamlines mileage claims and automated tracking

Corporate Offices
Manages employee reimbursements for telephone, entertainment, and transport

Claims Categories Supported

Medical and Dental:
Handles yearly entitlements with automated balance tracking and submission processes.

Entertainment:
Provides monthly entitlement management and streamlined reimbursements

Transport:
Includes claimable mileage rates for cars, bikes, and other transport types

Telephone:
Manages local and overseas claims with real-time tracking.

Project Payments:
Supports hourly rate claims with pre-configured validations.
