

Napster Learn for Enterprise.

In today's workplace, learning is too slow, too static, and too disconnected from real work. Napster Learn transforms corporate training into a dynamic learning ecosystem. By embedding proactive AI agents as supportive colleagues and mentors, it turns existing organizational knowledge into adaptive guidance that scales human expertise and ensures no employee falls through the cracks.

STRATEGIC USE CASES

03 / Cases

01

Instant Employee Support

Capable employees often hit a wall and disengage. Provide "Infinite Office Hours," allowing employees to chat 24/7 with a manager's Digital Twin for real-time, personalized 1:1 guidance.

02

Delegation at Scale

Managers cannot scale their time to meet every employee's moment of confusion. Free up your leadership team by delegating repetitive, foundational questions to their AI twin, reclaiming managers' time.

03

Unprecedented Visibility

Shift from tracking simple completion rates to gaining real-time, actionable insights. Administrators and leaders get instant analytics on employee sentiment, confusion points, and engagement levels.

VALUE PROPOSITION

04 / Pillars

01

MANAGER DIGITAL TWINS

High-fidelity AI clones of your leaders and experts, created in minutes to scale their specific leadership style and trusted knowledge.

02

PROACTIVE CONNECTION

AI check-ins that engage employees continuously through context-aware conversations, rather than passive modules.

03

CONVERSATIONAL COURSES

Turn existing PDFs or slide decks into fully interactive courses 10x faster—transforming static content into a dynamic experience where employees can interrupt and ask questions.

04

TOTAL IP OWNERSHIP

100% of the data, analytics, and interactions generated by the Digital Twins remain the intellectual property of your organization.
