

Transform expertise into **AI-powered** Simulations

Create immersive simulated personas in minutes and use them to hone your skills, receive coaching or personalized tutoring.

With MentorSim, you can now:

- Create highly accurate, real-time interactive personas
- Tailor each persona to their specific role and use them to hone your conversational skills, for personal coaching or as the ultimate personalized tutor
- Easily define key traits of the persona by text instructions or use the AI-consultant to generate a realistic persona using only your voice
- Add your custom body of knowledge by uploading your text-based files directly to the system ensuring the personas draw from specific knowledge
- Practice critical skills in safe, simulated environments
