How It Works:

✓ Instant Website Creation

Enter your website's URL and watch as MentorSite creates your complete AI video experience automatically.

✓ Multiple Embedding Options

Choose how your conversational video agent appears: as a standalone experience, embedded player on your page, or avatar-only integration with customizable backgrounds and knowledge cards.

✓ Unlimited Knowledge Grounding

Upload unlimited documents to create a comprehensive knowledge base that powers your AI specialist's expertise.

Key Features:

✓ Agentic Intelligence

Unlike static chatbots, MentorSite uses advanced agentic AI technology to find and deliver the most relevant information from your website in real-time.

✓ Complete Control Through FAQs

Easily control your AI's responses with customizable FAQs, ensuring consistent and accurate information for your visitors on crucial topics.

✓ Brand-Matched AI Specialists

AI video agents automatically appear in your brand colors, in environments that match your aesthetic, providing a consistent brand experience.
