

# Business Central Implementation Accelerator

## Out of the box implementation of Microsoft Dynamics 365 Business Central

You can now have the confidence to achieve your business objectives and still stay within budget. Based on a fixed scope, you are guaranteed a fixed price for your project completion.

Our Business Central Implementation Accelerator has a template driven approach, which utilises pre-configurations allowing for a rapid and fixed cost implementation.

With significant experience of implementing financial management solutions over the past 30 years, along with a desire to work closely with you, we are able to achieve the setup that best suits your organisation.

### What's included?

- System setup and configuration
- Static data import
- Opening balance and transaction import
- Super user training
- User acceptance testing support
- Go live support
- Project management

### What's not included?

- Integrations with other systems
- Customisations/development
- End user training

# Options

There are 3 accelerator options depending upon the functionality you require:

<b>Core finance system</b>  General Ledger, Purchase Ledger and Sales Ledger  <b>£20,000</b>	<b>Core finance system + Trade</b>  (Sales Order Processing, Purchase Order Processing and basic Inventory)  <b>£30,000</b>	<b>Core finance system + Trade + Basic Warehouse Operations</b>  <b>£35,000</b>
--	---	---

Projects can be tailored and additional tasks added as requested, these will be quoted for separately.

The benefits of utilising Xpedition's Business Central Implementation Accelerator include:

- Minimal disruption to your day-to-day business operations
- Increased speed and accuracy of initial setup and data take-on activities
- Overall project timeline reduced when compared to a traditional implementation approach – start realising the benefits of Business Central sooner
- Transparency in what you can expect to be included and excluded from the project, with clear deliverables
- Provides a platform for future growth, from which you will be able to identify and deliver future ROI
- Fixed budget for the project, giving you security in the fact that the investment is capped and there will be no unforeseen costs.
