

# Copilot START

Revolutionise the way you work by unlocking the power of Microsoft Copilot

## What is Copilot Start?

Xpedition's Copilot Start Engagement is a free, half-day workshop designed to help your organisation explore the potential of Microsoft Copilot and AI Agents. Led by a Senior Xpedition AI Specialist, this collaborative design-thinking session will guide you in quickly identifying key business challenges and demonstrate how strategic AI adoption can deliver maximum impact.

## Benefits to Your Business

- An inspiring showcase of Copilot and Agent capabilities tailored to your business.
- Customised around your key business challenges and aligned to your functional scenarios and roles.
- One-to-one expert guidance to help you navigate the agentic future.
- Develops confidence to embrace the latest AI technologies to boost productivity.

## What do you get?

Xpedition will develop a personalised Copilot START Blueprint outlining specific use cases, prioritised initiatives where Copilot can move your business forward and actionable next steps to unlock efficiency and growth.

## What's included in Copilot START?

Our complimentary engagement programme includes 3 stages to help you identify your current business challenges, how they can be solved using Copilot and Agents and recommendations on your next steps.

### 1. START Questionnaire

One week before the workshop, we'll ask you to complete a 20-minute questionnaire with input from your IT team. The survey will cover the IT systems your organisation currently uses and the top three business challenges you've identified as priorities for resolution.

### 2. START Design Workshop

This interactive half-day workshop focuses on your core business challenges and includes a 45-minute introduction to Copilot and Agents, followed by a review of survey responses. Through collaborative whiteboarding, problem reframing, and solution mapping, we'll identify AI-driven opportunities and create tailored Copilot-led customer journeys to help you move forward with clarity and confidence.

### 3. START Playback & Next Steps

One week after the interactive workshop, we'll host a one-hour session with you and your key stakeholders to review the AI opportunity blueprint and define the next steps for moving forward with your Copilot journey.

## What if you already have use cases?

If you're already familiar with Copilot and looking for assistance in developing the technology for specific business use cases, Xpedition is here to support you. Our expert consultative and development services are designed to tailor Copilot to your unique needs. Get in touch with one of our Business Managers to discover how we can help you unlock the full potential of Copilot.
