WHAT TRADEMO COMPLIANCE CAN DO FOR YOU

Compliance helps you classify your product categories according to HS Codes, define the import and export compliance norms you need to meet, and calculate the taxes and duties you need to pay to import and export various commodities.

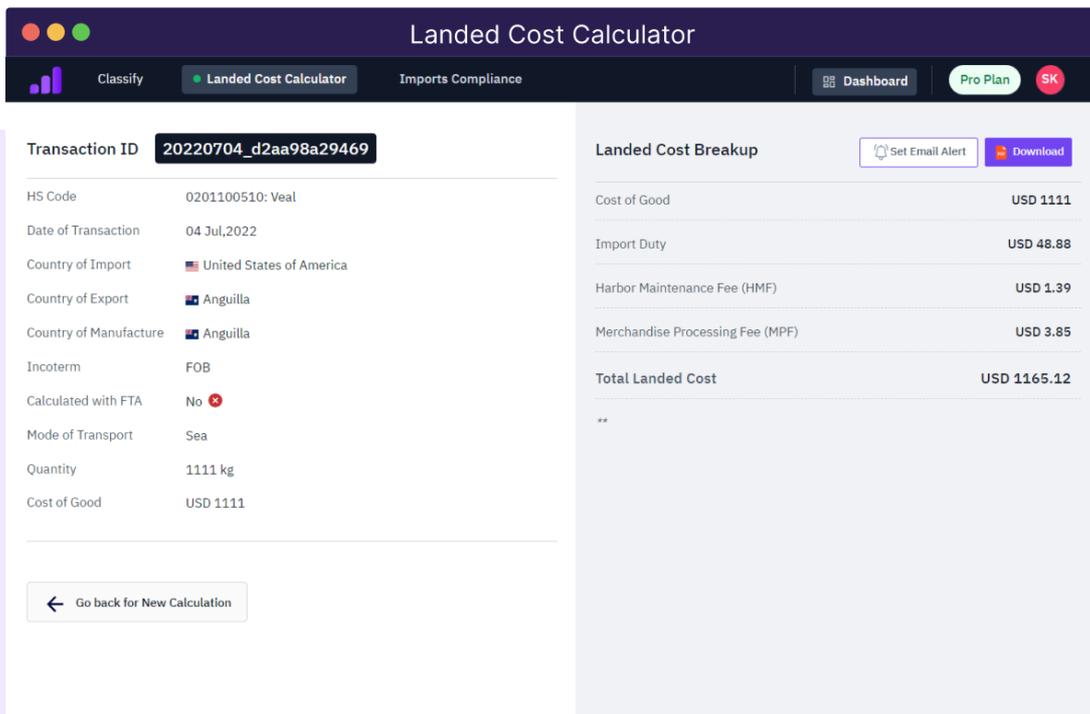

ONE TOOL TO MEET THEM ALL

Import & Export Compliance... For the World!

Trademo Compliance provides duty and tax information for your product catalog, the customs regulations you need to meet for the countries you're importing and exporting from, and detailed insights on the permits/licenses that you may require.

Pay Minimal Landed Cost for Your Products!

The landed cost is the total price of a product or shipment once it reaches the buyer. Trademo Compliance's calculator is equipped with the latest taxes such as VAT, GST, and more to help get the most minimal accurate landed cost possible.

The screenshot shows the 'Landed Cost Calculator' interface. The top navigation bar includes 'Classify', 'Landed Cost Calculator', 'Imports Compliance', 'Dashboard', 'Pro Plan', and 'SK'. The main content area is divided into two columns. The left column displays transaction details for Transaction ID '20220704_d2aa98a29469'. The right column shows a 'Landed Cost Breakup' table.

Classifying Your Products With the Right HS Codes

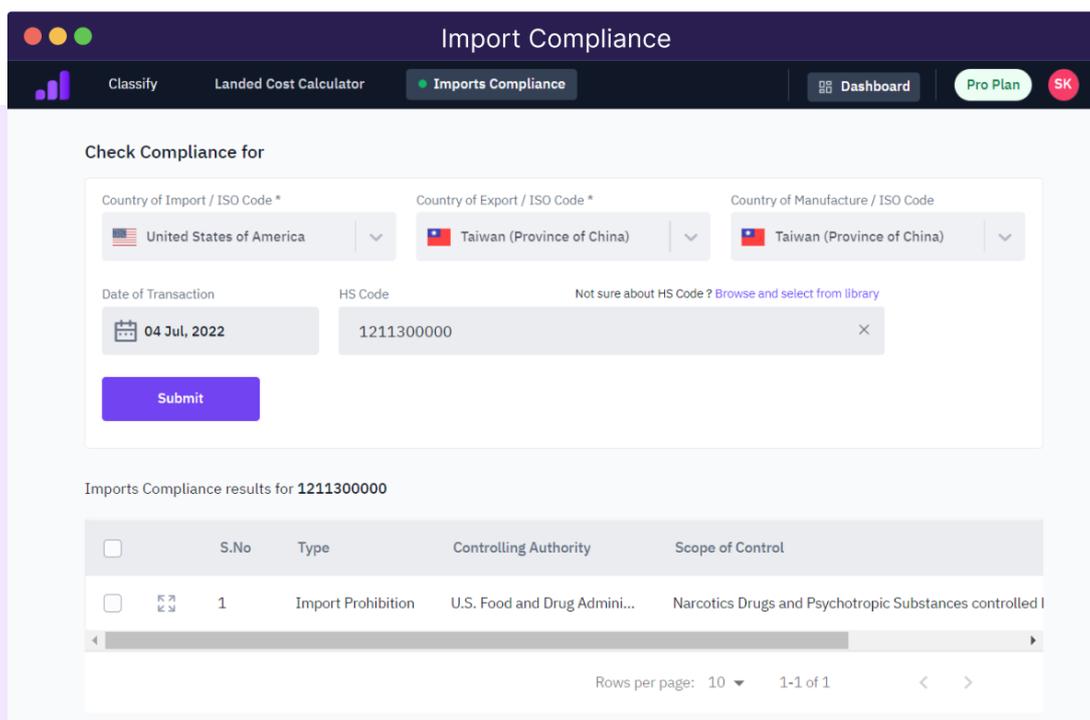

Trademo Compliance helps your classify your products based on its HS Codes which are specific to the countries involved. With the correct product classification, you can ensure that you are meeting compliance norms for your products.

The screenshot shows the 'HS Code Classification' interface. At the top, there are navigation links: 'Classify', 'Landed Cost Calculator', 'Imports Compliance', 'Help centre', 'Dashboard', 'Pro Plan', and 'SK'. Below the navigation, there are two radio buttons: 'HS Code' (selected) and 'Product Keyword'. The main form contains several input fields: 'Country of Import / ISO Code' (United States of America), 'HS Code' (0101: Live horses, asses, mules and hinnies), 'Date of Transaction' (07 Jul, 2022), and 'Language of Result' (English). A 'Search and Classify' button is located to the right of the 'Language of Result' field. Below the form, the classification results are displayed for '0101: Live horses, asses, mules and hinnies'. The results are organized into a tree structure under 'Section I: Live Animals; Animal Products'. The tree shows '01: Live animals' expanded, with '0101: Live horses, asses, mules and hinnies' expanded further. Under '0101', there is a sub-section 'Horses:' with the following codes: '01012100: Purebred breeding animals', '0101210010: Males', '0101210020: Females', and '01012900: Other'.
