

# Integrated Payments Solutions Overview

[transactcampus.com](https://transactcampus.com)

**TRANSACT**  
Payments 

Diversified payment, commerce, and bill presentment solutions that leverage innovative technologies to improve the transaction experience for both students and higher education campus financial services teams.

## ePayment

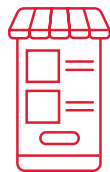

Automate the collection of funds with flexible, cloud-based solutions providing enhanced security, ease of use, and transparency across business operations.

- Supports several payment methods, including credit cards, ACH, campus cards, IFT, 529 electronic disbursement, and Apple Pay.
- Ensures students do not miss their due dates with optional recurring auto-pay features.
- Contains virtual tools for staff to provide remote support and assistance via User Emulation and Customer Research Center components.
- Supports custom messaging to help students and their authorized third-parties make more informed decisions.

## eMarket

Create robust online storefronts with Level 1 PCI-DSS compliant payment processing, easy-setup, and centralized management tools.

- Mobile-first design provides a full featured shopping experience for your student population.
- Features user configurable controls to manage content, site design, and simplified checkout options.
- Supports secure on-site transactions with iPad devices utilizing an encrypted mobile card reader.
- Integrates with third party storefronts to support specialized campus applications.

## Payment Processing

Payment processing services delivered by a single partner vendor help streamline support, lower overall processing fees, and simplify your reconciliation process at the end of the day.

- Streamlines reconciliation of accounts and saves time coordinating with multiple banks and services.
- Redirects previously-paid credit card fees toward other capital projects and school programs.
- Toll-free customer service for students and their authorized payers.
- Provides services to resolve chargebacks and handle disputes.

## Cashiering

Utilize our flexible tools to securely manage onsite payments across campus, from stationary to mobile environments.

- Market leading integration with several ERP, SIS and financial applications.
- Unlimited user licenses with centralized tools for dispute resolution management, reporting, customer information, and pop-up messaging.
- Supports encrypted card swipes and manual keypad entries for cashiering stations.
- Optional Mobile Payments for iPad enables you to utilize mobile cashiering options for electronic payments.

## eBill

Provide students and their authorized third-parties convenient 24/7 viewing access to statements with automated bill presentment.

- Automates notification of bill availability for students and payers, helping you deliver a better customer experience.
- Provides a comprehensive, static view of all account information, billing history, and charge details.
- Eliminates labor and postage costs associated with printing and mailing bills.
- Optional Dynamic Bill provides a real-time view of recent transactions and account activity detail

## Payment Plans

Provide your students with options to manage higher education's growing costs with our full-service or software-only payment plans.

- Offers multiple payment options, including credit and debit cards, ACH, campus card, 529, and International Funds Transfer (IFT).
- Supports fixed and variable plans based on administrative requirements and student need.
- Utilize Full-Service Payment Plans to offer student-facing customer support and marketing services that complement the My Payment Plan software application.

## 1098T & 1098E

Provide your students the ability to receive, view, and download their 1098 tax forms electronically.

- Automates the electronic delivery of 1098-T and 1098-E tax forms.
- Integrates with Bill Presentment
- Reduces labor and mailing costs associated with printing, mailing and filing 1098 statements.
- Optional Full-Service feature includes IRS filing.

## eRefund

Provide students with flexible resources to receive their financial aid and general refunds quickly.

- Shortens processing time and disburses financial aid via ACH to expedite delivery and reduce the need for paper checks.
- Features tools to easily track students who have opted in to receive electronic refund disbursements.
- Supports communication efforts with user-defined messages for students shared via their student web portal message center, text, and email.
- Utilizes ID verification tools to protect students and authorized third-parties.
