COPILOT ASCEND

2-HOUR 1:1 COPILOT WORKSHOP

Identify transformative use cases for Copilot in this 2-hour workshop!

WHAT TO EXPECT

TrellisPoint's Copilot Ascend is a 2-hour 1:1 workshop designed to help your organization unlock the full potential of Microsoft Copilot. In this personalized session, our experts will work closely with you to identify pathways to integrate Copilot's generative AI into your operations, enhancing productivity and driving innovation.

Discover use cases that can transform your workflows and elevate your business to new heights with the power of Microsoft Copilot. This offer is specifically designed for technology leaders aiming to innovate, enhance efficiency, and accelerate revenue generation through strategic integration of Copilot.

You will learn how Microsoft Copilot can help your organization address high-priority scenarios, including enhancing the customer journey, reducing administrative burdens and costs, and advancing decision-making processes through sophisticated AI features.

WHAT'S INCLUDED

Customized Copilot integration strategies

Better understanding of Copilot's role in improving decision-making processes

Exploration of specific use cases to optimize customer journeys and experiences

Actionable insights on reducing administrative burdens and operational costs

Identification of key areas for driving innovation and productivity

Guidance on accelerating revenue generation through Copilot-driven solutions

Comprehensive roadmap for implementing Microsoft Copilot within your organization

Hands-on demonstrations of sophisticated Copilot features and their business applications

Access to expert advice on leveraging Copilot to stay ahead of industry trends

ABOUT TRELLISPOINT
