Trident's Asset- Power App/ Mobile App

Customer Loyalty App

Loyalty App increases brand Loyalty, instantly rewards the customer. Make consumers feel appreciated. Organization can gather valuable customer data which can help them give more personalize offerings.

Merchandising App

Mobile app for retail merchandising. Allows your merchandisers or outside sales reps to perform retail operations using their mobile device

Mobile POS

Simplify your retail operations with everything from mobile point-of-sale tools and billing to inventory management, tender/transaction, real-time inventory look-up & more.

Field Service App

This would help synchronise your technical team, anytime and anywhere. Increase transparency and trust by seamlessly sharing quote, contract, and scheduling information with customers

Trident Offerings

Microsoft Azure Cloud Services

Microsoft Azure >> Services

The Windows Azure platform is Microsoft's cloud service for providing on-demand computing and storage resources. It is ideal for hosting collaboration systems, running big data applications, and migrating applications out of over-taxed data centers.

Dynamics on Azure

Make smarter decisions, redesign business processes faster and fuel business growth using the cloud-based enterprise resource planning (ERP) solution built for and on, Azure—bringing together ERP, business intelligence, infrastructure, compute and database services.

DevOps

DevOps brings together people, processes and products and enables continuous delivery of value to your end users. Azure makes DevOps easy, fast and cost-effective with the resources and open source tools you need to meet your business objectives.

Business Intelligence

Transform your company's data to support informed decision making. Gain deeper insight into your data to stay in the know and spot trends as they happen. With modern business intelligence (BI) solutions and tools, your entire organisation can understand and quickly act on data.

Internet of Things

Create the Internet of Your Things by connecting your devices, assets and sensors to collect untapped data. Improve performance and reduce costs with remote monitoring. Predict equipment failures before they happen with predictive maintenance.

Trident Offerings – Microsoft Azure Cloud Services

The Windows Azure platform is Microsoft's cloud service for providing on-demand computing and storage resources. It is ideal for hosting collaboration systems, running big data applications, and migrating applications out of over-taxed data centers.

Data Backup and Archive

Protect your data and applications no matter where they reside to avoid costly business interruptions or to meet compliance requirements. Securely extend your on-premises backup storage and data archiving solutions to the cloud—reducing cost and complexity, while achieving efficiency and scalability.

Disaster Recovery

Even a minor outage can put you at a competitive disadvantage. So, be ready with a business continuity plan that includes disaster recovery for all your major IT systems—without the expense of secondary infrastructure

Public & Enterprise Cloud

Highly-secure, shared service cloud with virtual segregation of compute and storage, and private Layer 2 virtual LANs providing unlimited capacity around the globe. Flexible private cloud delivers fully segregated, dedicated compute, storage, and network resources without requiring capital expense, time, and skills.

Managed Hosting

Dedicated infrastructure and application management services interconnected to our public and private cloud. Manage costs and provide critical scalability to your applications & server

Benefits of Microsoft Azure Cloud Hosting

- ✓ We are **Microsoft Gold Partner** – Cloud Solution Providers in India
- ✓ 99.95% uptime performance
- ✓ Work with the current language, framework, and tools
- ✓ Get unlimited server and storage space
