

## CENTRAL MONITORING

FOCUS - CONFIDENCE - EFFICIENCY

## CENTRAL MONITORING REIMAGINED

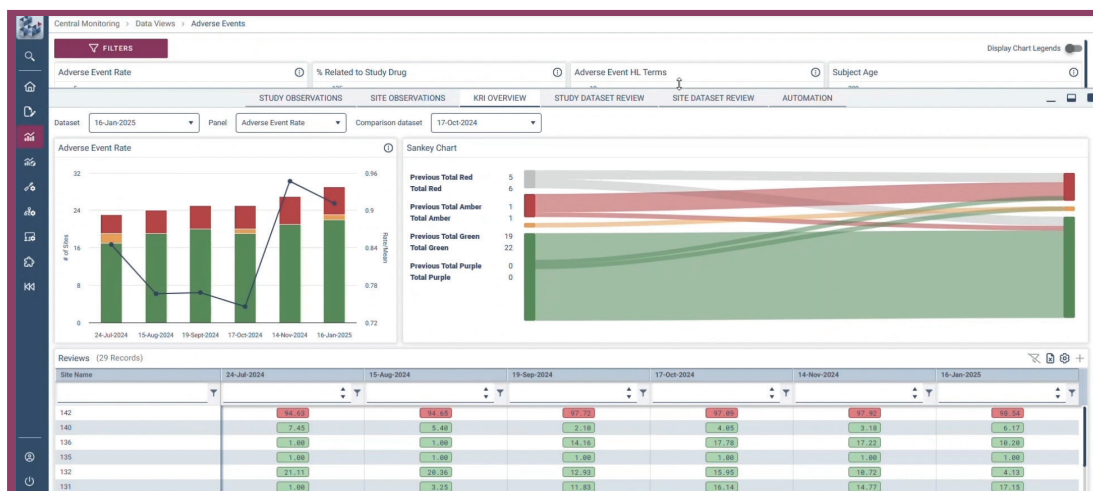

**OPRA CM** transforms central monitoring to provide instant focus on what matters most, instill confidence in decision-making, and achieve efficiency gains of up to 30%.

### Benefits

**Focus:** Instantly visualize changes over time, uncover hidden insights, and quickly identify areas of concern to direct attention where it's needed most.

**Confidence:** Intelligent and dynamic data structure provides complete data visibility with control to adapt to emerging needs and support evidence-based decision making.

**Efficiency:** Create rules, automate record creation, and streamline periodic review so teams can prioritize high value activities.

## Features

### Study Hub

One place to oversee all KRIs and QTLs. Track changes over time and uncover the underlying story behind the data headline.

### Rules-Based Automation

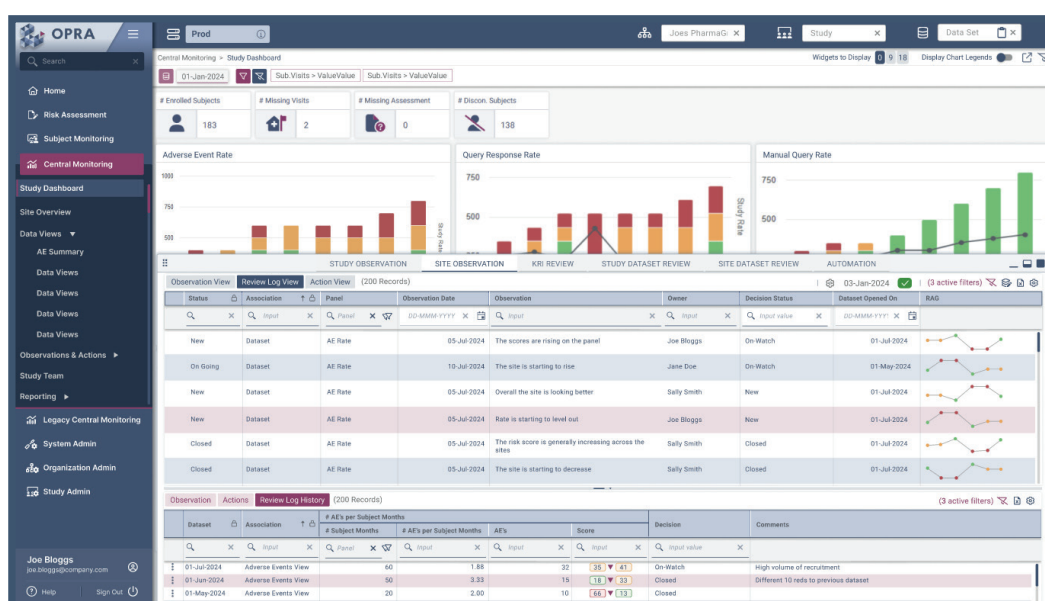

Automatically create and update monitoring observations in the review log based on pre-defined workflows.

### Dynamic Filtering

Hierarchical database structure enables data analysis from any perspective (study, country, site, and subject).

### Monitoring Toolkit

Review, track, and keep monitoring activities up to date all in one place, alongside your data.

Single, user-friendly system to assess data from all sources

40+ KRI/KPI/QTL/Data table visualization library

Create study specific KRI/KPI/QTLs

Compare historical data and review logs from any point in time

Control user access to roles, studies, libraries, and features

One click reporting with bespoke and standard reports

Full training and on-going support from operational experts

Fully validated, secure system (MFA, SSO)
