

TRUE SPOT

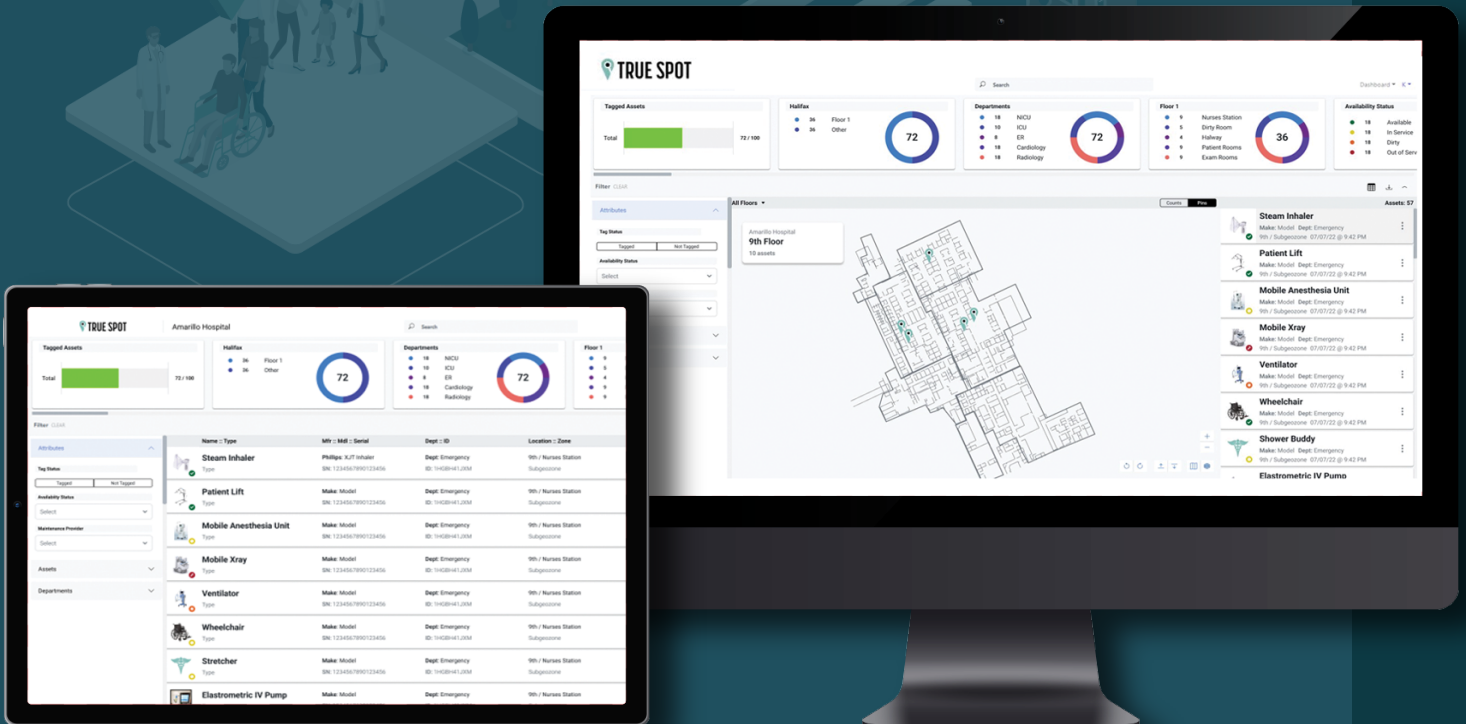

It Starts with Location...

The most cost-effective and easy to use RTLS solution available

- Real Time Location Services
- Lower cost to deploy
- No new wires or wall damage
- Hospital systems access not required
- Plug-and-Play asset tracking

MEDSPOT 360™

Track assets. Control loss. Improve outcomes.

The TrueSpot Health Platform uses patented RTLS to deliver Geo-intelligence™ for unparalleled improvements in health system operations.

truespot.com/health

Any RTLS solution should be able to track and report, but TrueSpot delivers MORE.

Our stand-alone campus network leverages LoRa (Long Range/Low Power radio technology) to go beyond RFID to deliver continuous asset tracking with a lightweight, lower-cost, easy-to-use-solution. But lightweight and easy don't mean less powerful. Our superior asset tracking platform delivers full spectrum RTLS asset tracking benefits:

- | Find equipment FAST
- | Drive preventative maintenance
- | Reduce replacement expenses
- | Improve compliance tracking and reporting
- | Increase staff and patient satisfaction scores

Why TrueSpot?

- | TrueSpot Health runs on our world leading RTLS platform - processing over **4 billion location data points each month**
- | TrueSpot's campus-based location system has **won multiple awards**
- | TrueSpot has multiple **patents and patents pending**
- | Only TrueSpot goes beyond tracking to provide a Geo-intelligence solution that **will improve operations for years to come**
