

Trustii.io

# Introduction

2023

# The problem

Despite 95% of organizations planning to use AI by 2025\*, many will face issues implementing it

## Technical

- Organizations struggle to leverage AI due to lack of techniques expertise

## Financial

- Third-party AI solutions are targeting organizations that has data scientists and are costing up to \$200K for a proof of concept

## Operational

- Organizations struggle to connect with academics that are building and training on latest of AI technologies

# Our solution

Helping organizations with any skill set build the custom AI models they need

**Automated AI models**  
Code-free solution that  
reduces need for data  
scientists

**Unlock the middle pathway**  
Build custom AI models using our  
data scientists community through  
competitions

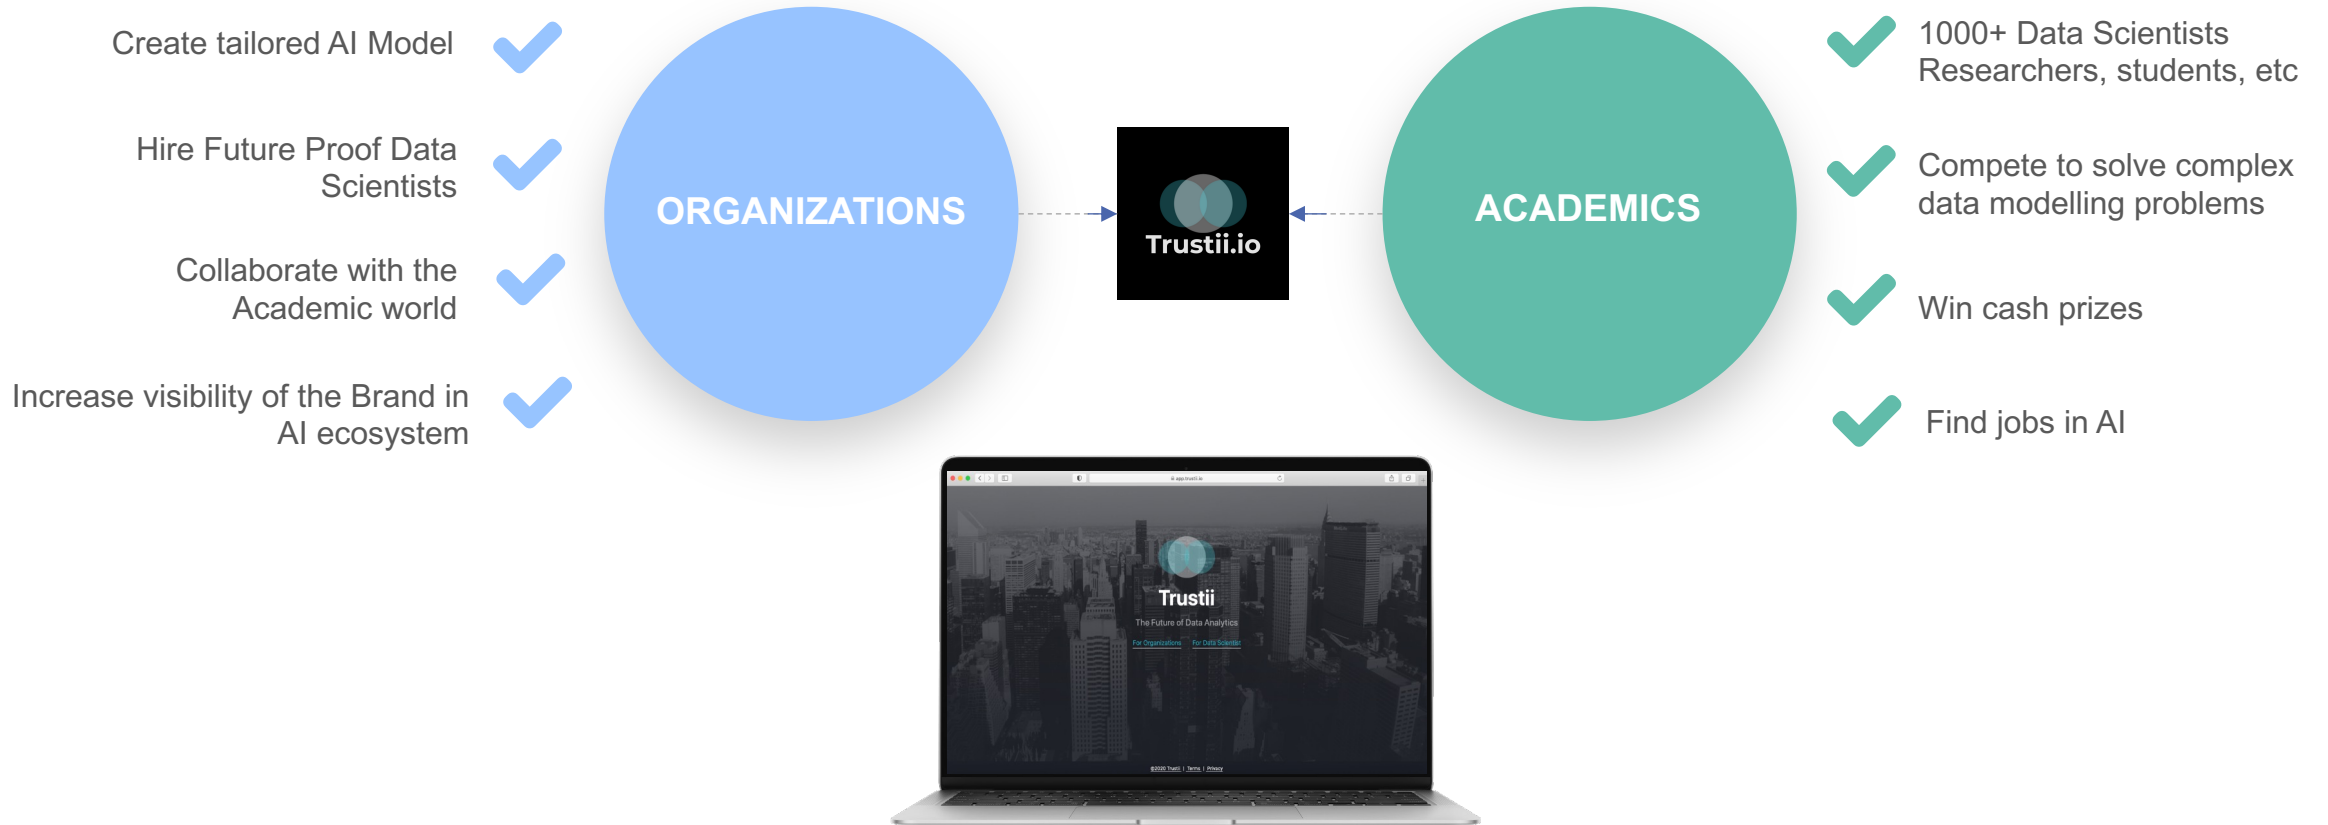

**Customized AI models**  
Build advanced AI Models  
from scratch using our tools  
and computational resources

# Our Platform

We provide a web platform that connects businesses with the academic world, through data science competitions.

# Customer Journey with Trustii.io

## Customer Uploads his Dataset

Drag and Drop the Dataset into Trustii platform, and define what he would like to predict

We help the customer prepare a Dataset

Making sure the dataset has the right features, and a target to predict

## Prototyping and Testing

Trustii delivers quickly a basic AI Model

Run the model on our platform and test your analytics use case and re-iterate.

## Building Best Custom AI Model

Through Trustii's data scientists community competition or using our development & computing environment

## Advanced Predictive Modeling

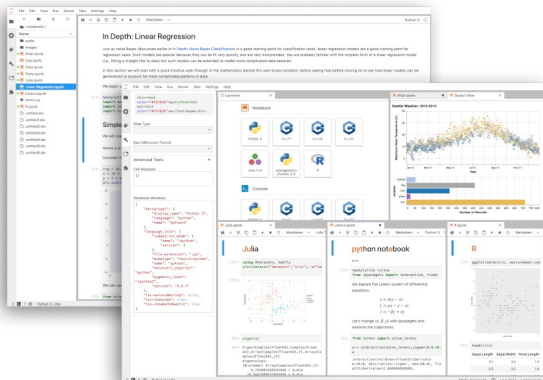

## Evaluation and deployment

Evaluate the result of the modeling

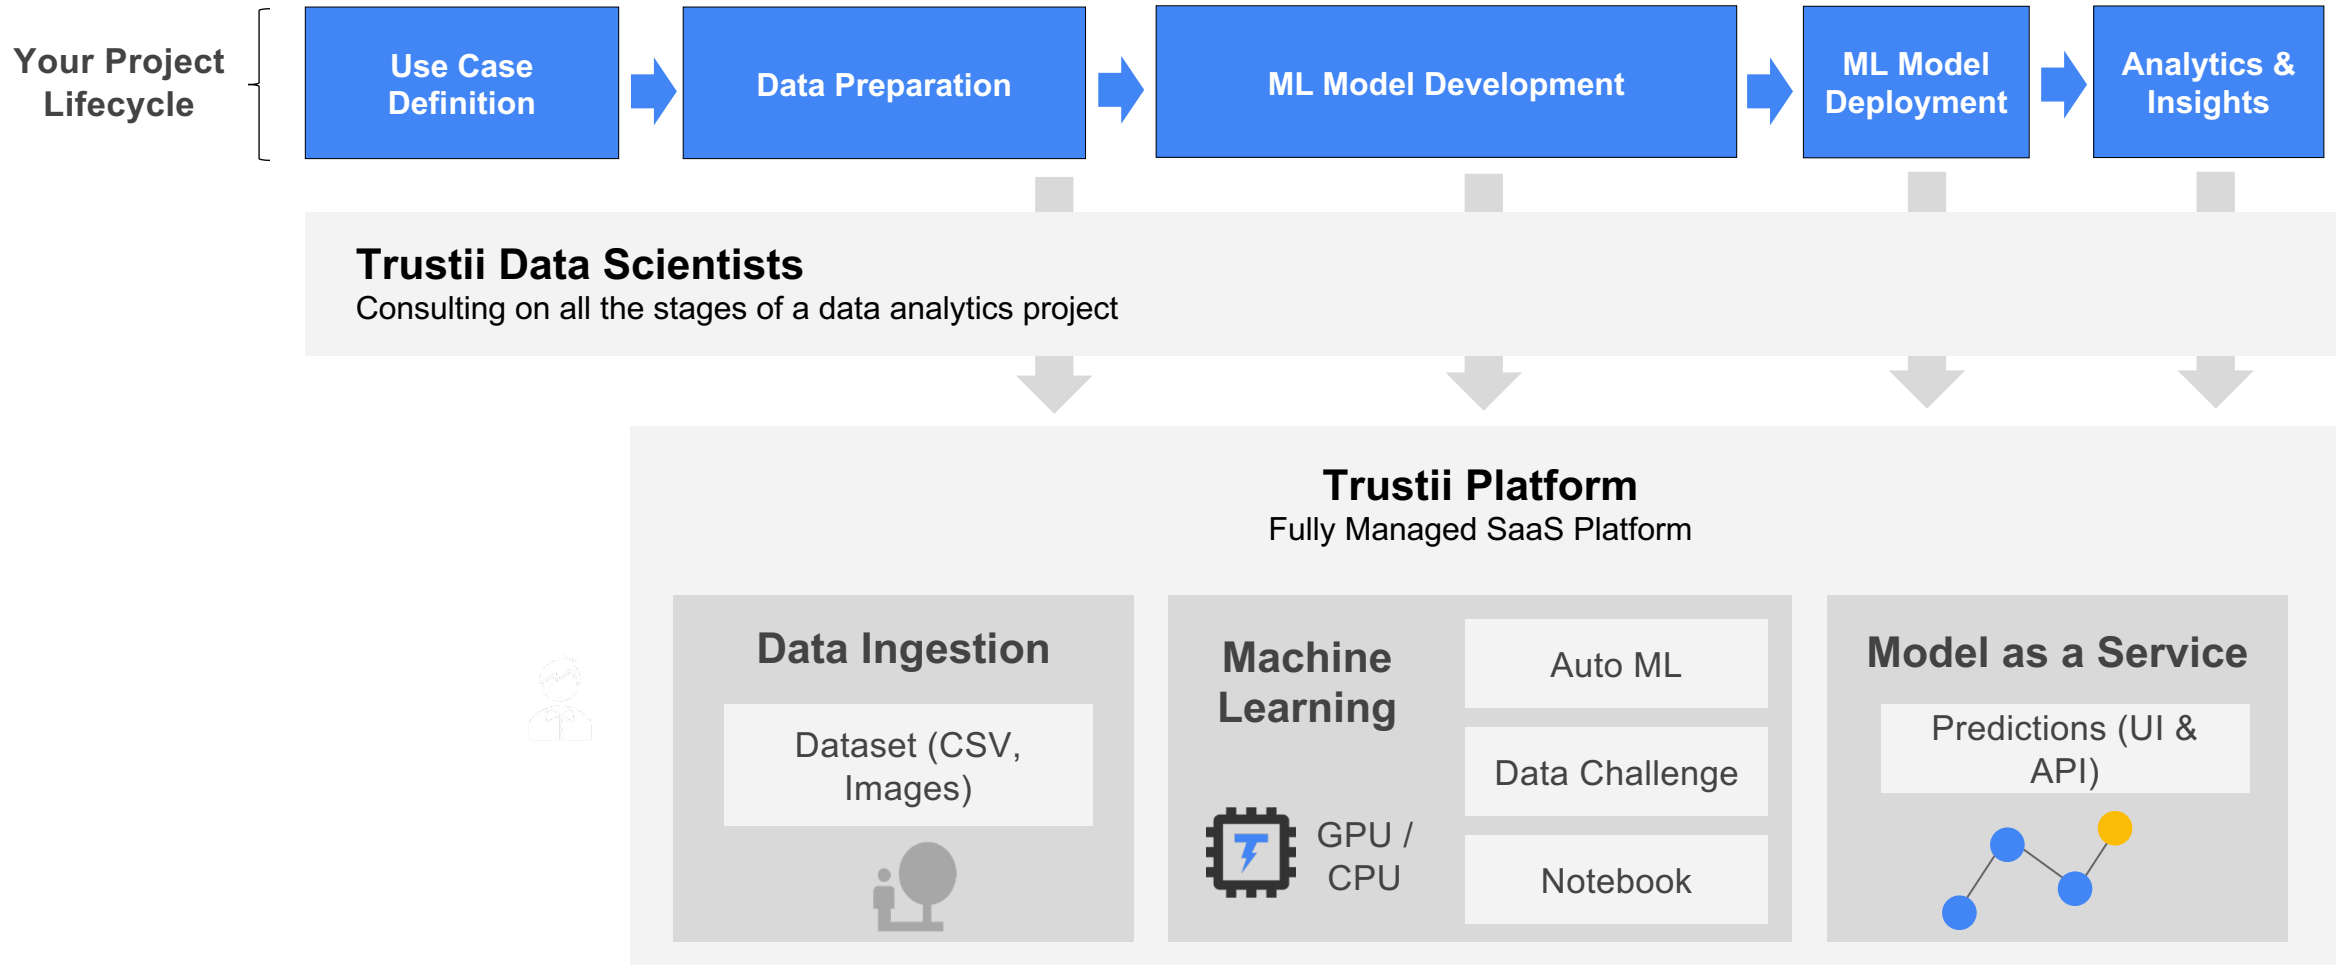

Download the source code and documentation of the best model, and evaluate performance vs expectations

## Deploy the Model and Generate Insights

We help the customer deploy the best model at his preferred environment, at Trustii platform or his own cloud

# Building blocks of Trustii.io offering

# Case Study : Strasbourg University Hospital

Helping them to build AI solution that diagnosis rare diseases from oral expressions

## Why they chosen Trustii.io ?

- 1 Tailored AI Consulting
- 2 Better Data confidentiality
- 3 Cost effective
- 4 Smooth Collaboration with academics
