Trustmarque Fabric Catalyst

“A pragmatic adoption roadmap at your pace”

Our Fabric Catalyst engagement is designed to be your one-stop shop for setting up and maximizing your investment in Microsoft Fabric. Whether you need straightforward assistance with licensing or delivery of major projects, we are here to help you every step of the way.

We offer complimentary advice and guidance on the best ways to purchase Fabric, including via Cloud CSP.

Using Trustmarque professional services, our cloud security team will ensure you have the correct Azure controls in place to keep your environment secure. Our Fabric engineers and analysts will ensure you start with best practices from the beginning and our managed services team can keep you supported in the long term if required.

We can advise on the best ways to migrate other workloads into Fabric, saving you money and can also potentially help with funding your Fabric adoption.

Once set up we offer a variety of optional support packages for Fabric so you can continue to maximise your investment

Microsoft Fabric

The unified data platform for AI transformation

Data
Factory
