

TurnDigital Kentico

TURN DIGITAL
TAILORING DIGITAL

Digital transformation

Challenges

The dire need of having a system that facilitates content management, instead of having multiple scattered data resources, and supports marketing and e-commerce capabilities.

The presence of an easy to use tools that can help users build websites in short time.

Scalability issues and technology limits, in addition to relatively existing high price solutions specially with the overall economic challenges

Ideal Solution

To have a solution that can enable customer to have an integrated CMS with an outstanding value for money

Being an integrated solution with different modules, makes it the perfect choice to create cutting-edge websites and optimize your digital customers' experiences fully across multiple channels

Desired Outcomes

- Clients pay only for production servers and grant unlimited dev/staging/testing servers plus unlimited users
- 24/7 support with every license

Companies will be able to go to market in a short time, and will provide users with a great digital experience that will help them grow faster

A solution that will help your business grow faster
