

# Forensic Notes™

## Collect Evidence at the Scene

Give officers the mobile tool  
they expect and need

Officers can:  
**Create Electronic Notes**  
&  
**Take Pictures, Video and Audio Statements**

To enhance their investigations while properly  
documenting what they observe

Instead of writing policies and training officers to avoid using their personal devices, why not provide them with Forensic Notes? This ensures officers, the department, and the investigation are not compromised.

Audio & Video  
Capture

Image  
Capture

Read-Only  
Documents

Advanced  
Note Taking

Voice  
Dictation

Data  
Encryption

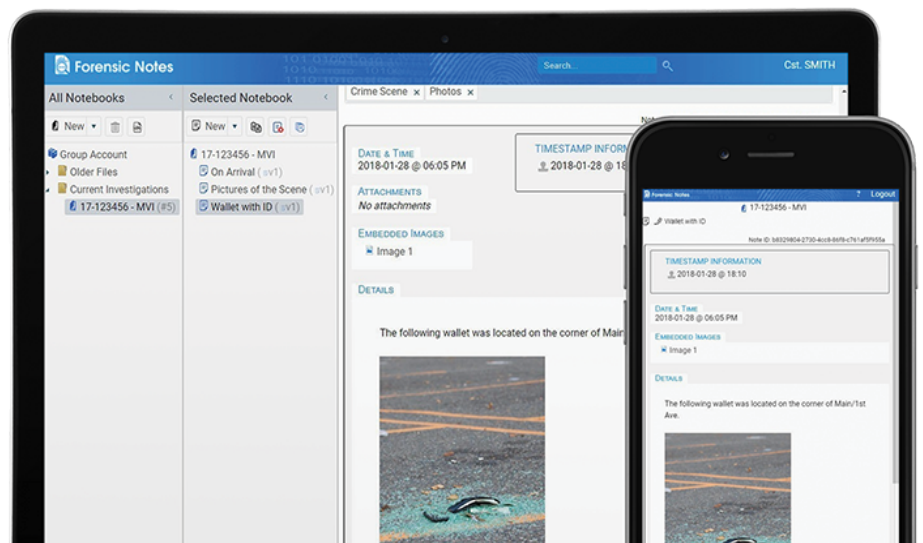

Available on  
All Devices

Best of all, the officers' evidence is saved in a read-only format to ensure data integrity is never compromised.

Today's patrol officers are young, tech-savvy individuals who have grown up with a cellphone in their hand. Give them Forensic Notes to get the job done correctly at the scene and on the stand.
