# Microsoft Fabric & AI Copilot – 2-Week Readiness Assessment

Accelerate Real-Time, AI-Driven Insights and Modernize Your Data Estate

## Overview

Unlock the full potential of your data with **Microsoft Fabric and AI Copilot**. In just 2 weeks, our Microsoft-certified experts will evaluate your data estate, identify real-time analytics and AI opportunities, and deliver a clear roadmap to modernize analytics and operations.

## 2-Week Assessment Agenda

### Week 1 – Discovery & Analysis

**Day 1: Envisioning Workshop**

**Day 2–3: Current Data Landscape Assessment**

**Day 4–5: Target Architecture & AI Opportunity Mapping**

### Week 2 – Roadmap Development & Executive Alignment

**Day 6-7: Modernization Roadmap**

**Day 8-9: Cost, Licensing & Skilling Strategy**

**Day 10: Executive Presentation & Recommendations**

## Business Benefits

**Single Source of Truth**

**Unified Data Estate**

**Embedded AI & Copilot**

**Optimize Costs**

**Faster Decisions**

**Expert Guidance**

## Pain Points Addressed

- Lack of Real-Time Analytics
- Fragmented Systems
- No Centralised Data Warehouse
- High Costs
- Slow Insights
- Governance & Security Gaps

## Key Deliverables

**Assessment Report:**

- Current data & AI readiness analysis.
- Target architecture with data warehouse consolidation and real-time analytics feasibility.
- Roadmap with prioritized analytics & AI use cases.
- Governance, security, and compliance recommendations.
- Cost & licensing strategy.
- Skilling & adoption plan.

**Executive Presentation:**

A Tailored Management Presentation of:

- Tailored findings, insights, and roadmap for leadership
