# Smart Survey App

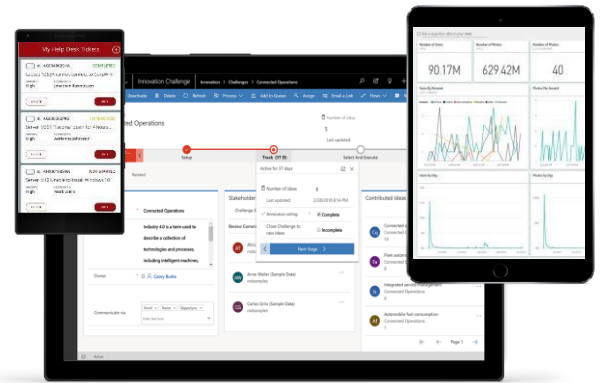

Smart Survey is aimed to reduce the hesitance in taking part in a survey, like longer time engagement, detailed scenarios sentences, unsorted questions etc. Smart survey is built with favorable click ratings, process sections, comment boxes, proceeding status indicators for an interactive survey

## Feedback simplified and organized

A survey on customer satisfaction in different phases of solution development is observed in this application. It helps in enhancing various processes involved from inception to delivery. Feedback and survey being an essential supplement for continuous improvement, helps largely in each of the process's enhancement. Smart Survey can be utilized for any function of any industry as a response management tool for quick and secure analysis of customer experience.

Smart Survey app helps to identify the gaps in customer feedback and enables the customer to register their experience in different phases like responsiveness, quality, packaging and delivery and so on

**About us:** UBTI is well experienced in delivering business applications for a wide range of domains including Aerospace, Financial services, Healthcare, Health Insurance & Education. With our expertise in PowerApps, we build apps enabling our customers simplify and streamline processes, helping them conduct their business with minimal effort. With years of experience in Microsoft Analytics tools, we help our customers derive in-depth insights from their data.

## Initiate surveys on the go with smart fields and ratings
