

Polls By Udyamo

A quick and easy way to gather the team's feedback!

Polls by Udyamo allow you to create polls and gather feedback from your team in just a few clicks. The application is designed to facilitate the process, offering an interactive platform where users can create, participate in, and view polls effortlessly. With a user-friendly interface and robust functionalities, this application enables the seamless creation and management of polls while ensuring an engaging experience for respondents.

Key Features and Benefits:

Polls by Udyamo offers several features and benefits which are listed as follows:

1. **Improved communication:** Polls allow you to gather feedback from your team in a quick and easy way, which can help improve communication and collaboration.
2. **Better decision-making:** By gathering feedback from your team, you can make informed decisions that align with your team's needs and goals.
3. **Increased engagement:** Polls can help increase engagement and participation within your team, as team members feel like their opinions and feedback are valued.
4. **Timesaving:** Polls are a quick and efficient way to gather feedback from your team, which can save you time and resources in the long run.
5. **Increase Participation:** Polls can increase participation in company-wide initiatives by giving employees a voice and allowing them to feel heard.
6. **Measure Progress:** By conducting polls regularly, organizations can measure their progress over time and track improvements in areas such as employee engagement and satisfaction.
7. **Foster Transparency:** Polls can foster transparency by providing a platform for employees to share their thoughts and opinions anonymously, without fear of retribution or judgement.

How it Works?

Creating a poll is easy. Simply follow these steps:

- Add the Polls by Udyamo App either to your team or any group chat, based on your needs. Polls are flexible, allowing both individual and group participation.
- To create a quiz within a team/ a group chat, go to the compose message area and locate/select the Polls by Udyamo app.
- A modal pop-up will show up for user to fill in the poll details like poll question, poll options, and optionally to set poll results to be anonymous, for users to vote on multiple options, and to set poll closing time.
- Click submit after filling up the details.
- A poll message card will be sent to the channel where the poll was invoked.
- Once your team members receive the poll, they can answer the questions and submit their responses. You can view the results of the poll in real-time and use the insights to make informed decisions.

Conclusion

Polls by Udyamo is a powerful tool that can help you gather insights and make informed decisions that align with your team's needs. It can help organizations gather quick and valuable feedback from their teams. By utilizing this feature, businesses can save time and resources, as they can easily collect feedback on specific topics without the need for lengthy meetings or surveys. Additionally, polls can help increase employee engagement by allowing them to have a voice and participate in decision-making processes. This can lead to higher job satisfaction and a stronger sense of belonging. Whether you're looking to improve communication, increase engagement, or make better decisions, Polls can help you get there faster and more efficiently. Try Polls by Udyamo today and see the difference for yourself!
