A fully responsive and innovative booking engine for hotel websites allowing you to easily manage and handle your reservations.

All-Kind Of Payment Options

The system used (for accepting cards over the Internet) is easy to use and meets all the required security standards (3Dsecure, Verified by VISA and MasterCard SecureCode). With UIBSclearing you never lose a customer, even if his credit card fails.

Book Multiple Rooms in a Single Reservation

Our Booking Engine simplifies the process by allowing guest to book multiple rooms in one reservation by adding their information once.

Achieve maximum occupancy

Increase revenue and achieve maximum occupancy for your hotels

Our booking engine simplifies the process by allowing guest to book multiple rooms in one reservation by adding their information once.

Handle Reservations in your own Currency & Language

A user-centric booking system providing you and your guests with the friendliest online experience. We understand that you need to do business in your own currency and language and thus your extranet as well as the booking engine are translated in various languages and support every single currency of the world so as to draw visitors from diverse language backgrounds.

Secure hotel booking engine

Safety is exceptionally important for us. We use the latest SSL technology to secure your clients' sensitive data.
