

Simplify Energy Regulatory Approvals with AI Precision

Faster research, smarter submissions, and confident compliance
— purpose-built for energy projects

Who We Are

Ultimarii helps energy companies prepare stronger, regulator-aligned submissions by combining verticalized AI tools with structured data from over 30 regulators.

Why Choose Us

Ultimarii is trusted by energy teams working on complex, multi-jurisdictional projects. From early-stage research to final submissions, we help reduce delays, improve accuracy, and keep your regulatory work moving.

30+
regulators covered

1000+
indexed precedents

Your Challenges

- Researching across multiple jurisdictions is time-consuming and fragmented
- Aligning submissions with precedent is inconsistent and risky
- Limited resources to respond quickly to regulator feedback

Our Solutions

Ultimarii reduces friction across energy regulatory workflows by integrating intelligent drafting tools, precedent-based research, and structured review support into a single, focused platform.

**Regulator-Aligned
Drafting Playbooks**

**Precedent-Based
Research Tools**

**Built-In Submission
Validation**

The Benefits

1

Faster Approvals

Accelerates project timelines by eliminating bottlenecks in research and review

2

Fewer Rewrites

Reduces the risk of costly rework due to missing requirements

3

Stronger Internal Coordination

Improves internal alignment across legal, regulatory, and operations teams
