

# PERFORMANCE REVIEW

**for Microsoft Dynamics 365 for Finance and Operations**

# Performance review service

For more and more organizations, the availability and speed of Microsoft D365 F&O is critical to ensure continuity. You need a good performing Microsoft D365 F&O environment.

What are the operational and financial consequences if suffering from bad performance?

Our specialists can help by analyzing and optimizing your environment.

## Ultimate Software will provide the following actions:

- ✓ Database server configuration analysis
- ✓ Wait statistics analysis
- ✓ Index analysis
- ✓ Query plan cache analysis
- ✓ Log file analysis
- ✓ Long running query analysis
- ✓ Maintenance plans status
- ✓ Temp DB review

These action points will be added in a report, which will be discussed with you and will be combined to an action plan that will result in a better performance.

Follow our company page  
for news and inspiration.
