umbrellar
Azure & Azure Stack Managed Services
Brilliant.

Why Umbrellar…. Partners make more possible

Our vision

We empower New Zealand organisations to achieve Brilliant things with the Microsoft Cloud.

Our mission

To be the partner of choice within the New Zealand IT industry.

Our promise

To bring the best people, partnerships, resources and expertise to New Zealand businesses to achieve more with the Microsoft Cloud.

There are more ways than ever to create new business opportunities. Umbrellar is here to help you be the hero in your own NZ success story.

The Cloud, done right

Discover

Choosing the right cloud partner is critical. We have the most people on the ground in NZ to help you accelerate enterprise wide adoption by offering assessment and planning, migration management, architectural guidance, deployment and lifecycle support. We offer the right solutions and partnership

Professional services

We understand the need for a more responsive, flexible, scalable and more competitive solution. This means the right technical solution, providing you peace of mind. You need experts in configuration management, back up and DR, identity management, automation and DevOps. But most importantly, you need it done right.

We offer you deep operational expertise with a robust spectrum of services and support to tackle the complexities of the cloud. From strategy, operational management, through to commercial governance.

Service management

You need a partner who is an expert that overlays excellence in governance, monitoring, cost optimisation, and support SLAs. We deliver every time so that you can thrive not just survive in the cloud. With our Azure Managed Services you get around-the-clock support. Umbrellar manages the full cloud lifecycle with the expertise you need to address your transformational goals.
