Guaranteescalabilityandhigh-availability ofyourdatabymigrationintoacloud.

summ-it

ABOUT summ-it:

We are a consulting company and started our journey in 2011. Main part of our offer are IT solutions, especially in database area including on-premise as well as cloud solutions. Our core competences are Database Managed Service and Business Intelligence solutions. Our primary customers are clients from Financial and Retail sectors.

WHAT WE OFFER

Our core competences are Managed Service and Business Intelligence, hence we are able to manager your databases and analyze data to provide appropriate information about your business. We delivers end-to-end service and you can be sure that you data is in good hands.

We are deeply specialized in Microsoft stack, including Azure cloud platform. Hence, we will help you with database audit and performance & tuning. Moreover we will migrate your databases into a cloud, following by specialized framework.

If you would like to upgrade your systems, and be sure that all of them are up to date, we will analyze your environment and prepare a feasibility study to proof that all risk will be mitigated during the migration and everything will be delivered according to detailed plan agreed with business units.

Secure your data and guarantee scalability and high-availability with highly competent team, who already have an experience with overall 8000 databases.

WHAT OUR CUSTOMERS ARE SAYING

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

KEY USE CASES

YOUR LANGUAGE, YOUR TOOL, YOUR APP
With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

UNIFIED IDENTITY PLATFORM
Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

ANALYTICS 14 TIMES FASTER THAT COSTS 94% LESS
Turn your data into insights with breakthrough performance, security, and speed. Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

90+ COMPLIANCE OFFERINGS
Proactively safeguard your data and streamline compliance with the most comprehensive compliance coverage of any cloud service provider.

WHY AZURE

BE FUTURE-READY
Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. Transform your business and applications with a full set of cognitive services. Infuse your apps, websites, and bots with intelligent algorithms to see, hear, speak, understand, and interpret your user needs through natural methods of communication.

BUILD ON YOUR TERMS
You have choices. With a commitment to open source, and support for all languages and frameworks, build how you want, and deploy where you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

OPERATE HYBRID SEAMLESSLY
On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud. Bring cloud scale and AI-powered security protections to your on-premises virtual machines and IoT devices, all managed centrally along with security for your cloud resources through Azure Security Center.

TRUST YOUR CLOUD
Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups. Your data, powering your experiences, controlled by you. Our core privacy principle is you own your data; we will never use it for marketing or advertising purposes.
