PLANNING FOR TEAMS ROOM SUCCESS

8-hour remote planning engagement showcasing Microsoft Teams Rooms' power, providing expert guidance, tailored agendas, and materials for pilots or enhancements.

This remote 8-hour planning engagement showcases the power of Microsoft Teams Rooms and prepares you with the knowledge, expert recommendations, and materials to either move directly into a Teams Room pilot or take your existing deployment to the next level, depending on where you are in your Teams Room journey. A customized agenda will be mapped to your needs, and can be conducted in a single day or spread across several sessions.

TOPICS COVERED INCLUDE

- Evaluation of current meeting rooms capabilities and environment
- Live immersive demonstration of Microsoft Teams Meetings capabilities and virtual tours of meeting room designs.
- Hardware, furniture, and room design selection including Signature Rooms.
- Technical Readiness
- Device Management
- Deployment Strategy and Best Practices
- Adoption Change Management

DURATION: 8 HOURS

VALUE: $5,000

OUTCOME

- An evaluation of your current meetings, spaces, meeting rooms capabilities, rollout plan, device management and ACM strategy.
- Next steps to move directly into a Teams Rooms pilot or take your existing deployment from good to great.
- Customized report with actionable recommendations for transforming meetings and meeting rooms across your entire organization.
- Up to 5 custom meeting room renderings, BOMs, and Line Drawings featuring meeting room layouts and equipment selected during the workshop.
