WHY UNIFY SOLUTIONS?

WHY UNIFY

UNPARALLELED MICROSOFT EXPERTISE AND COMPREHENSIVE SOLUTIONS

At UNIFY, we specialise in transforming Microsoft platform deployments into robust, secure, and scalable solutions. Our deep expertise in Microsoft technologies underpins our unique One-Stop-Shop service model, offering end-to-end capabilities in Identity, Access, and Security. We're not just consultants; we are your strategic partners in securing digital assets and optimising business efficiency.

For a detailed overview of our services, please refer to the Service Catalogue below, which outlines our comprehensive suite of services integral to achieving Zero Trust Security. These services incorporate the full range of Strategic Planning, Implementation and Support services.

TAILORED ZERO TRUST SECURITY

Embracing the principle of "never trust, always verify," our Zero Trust Security framework is at the heart of our service offerings. This approach isn't just a protocol—it's built into every layer of our solutions from the ground up. By integrating advanced Microsoft solutions with our proprietary IP, we ensure that every access point and identity is continuously validated, keeping your enterprise secure in a perimeter-less digital world.

PROVEN TRACK RECORD

UNIFY is trusted by a diverse and prestigious customer portfolio, from government agencies to finance and healthcare sectors. Our strategy, powered by innovation and driven by the best and brightest in the industry, ensures that we not only meet but exceed the stringent demands of our clients. Our consistent focus on delivering world-class solutions is evident in our sustained customer satisfaction and long-term partnerships.

CUSTOMISED SOLUTIONS, POWERED BY AI AND AUTOMATION

Our commitment to innovation is demonstrated through advanced platform automation and AI-driven solutions, ensuring that your Microsoft deployment is not only efficient but also future-proof. Whether it's streamlining identity verification processes or enhancing security operations through AI, UNIFY's solutions are designed to adapt to your evolving business needs.

DEDICATED SUPPORT AND SUSTAINED GROWTH

Choosing UNIFY means gaining a partner that invests in your success. Our 24/7 support and managed security services are just the beginning. We collaborate closely with our clients to develop and implement roadmaps that anticipate future challenges and opportunities, fostering growth and resilience in an unpredictable digital landscape.

SECURE EQUITABLE ACCESS FOR ALL

Our vision of providing secure and equitable access for all drives us to deliver solutions that ensure everyone in your organisation can access the tools and information they need safely and efficiently, no matter where they are. This commitment makes UNIFY a leader in promoting inclusivity through technology.
