Microsoft
Solutions Partner

Our Microsoft Portfolio

Making Cooperation Valuable

Uni Systems, a long-standing strategic ICT partner to organizations across Europe, demonstrates a proven record of achievements in complex and critical IT projects in more than 20 countries through its entities in Athens, Brussels, Luxembourg, Bucharest, Milan, and Barcelona.

Uni Systems maintains a long-lasting and strategic partnership with Microsoft fully supporting Microsoft's vision to empower every person and every organization on the planet to achieve more.

Ensuring technology best practices and business continuity approaches

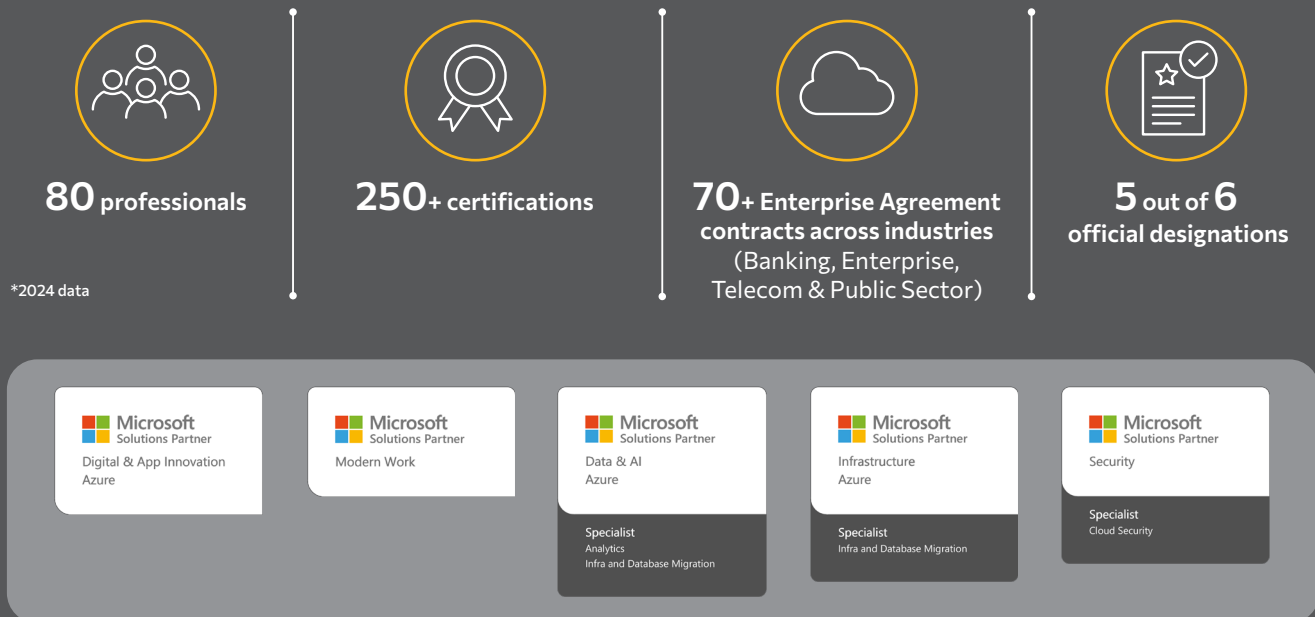

Microsoft Designated Solutions Partner
(LSP, CSP Tier-1 & Direct Managed Partner)

One of the leading
Enterprise Software Advisors (ESA) &
License Solution Partner (LSP)
in EU region

Certifications & Designations

By attaining each year, the **Microsoft Partnership status**, Uni Systems demonstrates its commitment on establishing Microsoft best practices by continuously investing in increasing the number of Microsoft certified professionals both on products and respective technologies.

The award of Microsoft specializations is the result of Uni Systems' assessment, by official independent auditors, and validation of its technical capabilities to deliver specialized services in the specific solution areas. Moreover, Microsoft specialization process requires a significant number of verified project references by customers on the respective Azure technology stack.

We are one of the few being specialized in the domains of SQL Server and Windows Server migration, Security and in the field of Azure Analytics at a European level.

Three distinct specializations:

Infra and Database Migration | Analytics on Azure | Cloud Security

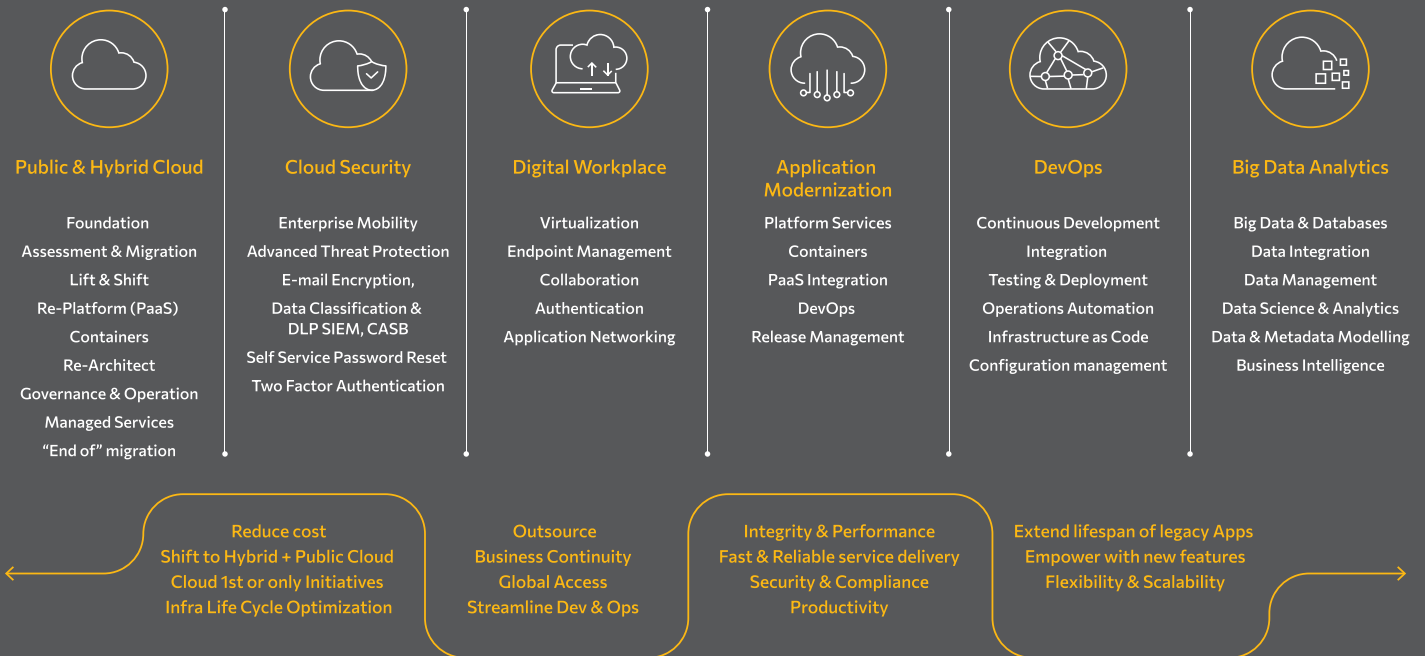

Five out of six Solution areas (previously Gold Certification)

- ▶ **Modern Work:** As a Solutions Partner for Modern Work UniSystems demonstrates broad capability to help customers boost their productivity and make the shift to hybrid work using Microsoft 365.
- ▶ **Data & AI:** As a Solutions Partner for Data & AI UniSystems demonstrates broad capability to help customers manage and govern their data across multiple systems to build analytics and AI solutions.
- ▶ **Digital & App Innovation:** As a Solutions Partner for Digital & App Innovation, UniSystems demonstrates broad capability to help customers modernize existing applications and build cloud-native apps.
- ▶ **Infrastructure:** As a Solutions Partner for Infrastructure, UniSystems demonstrates broad capability to help customers accelerate migration of key infrastructure workloads to Azure.
- ▶ **Security:** As a Solutions Partner for Security, UniSystems demonstrates broad capability to help customers safeguard their entire organization with integrated security, compliance, and identity solutions.

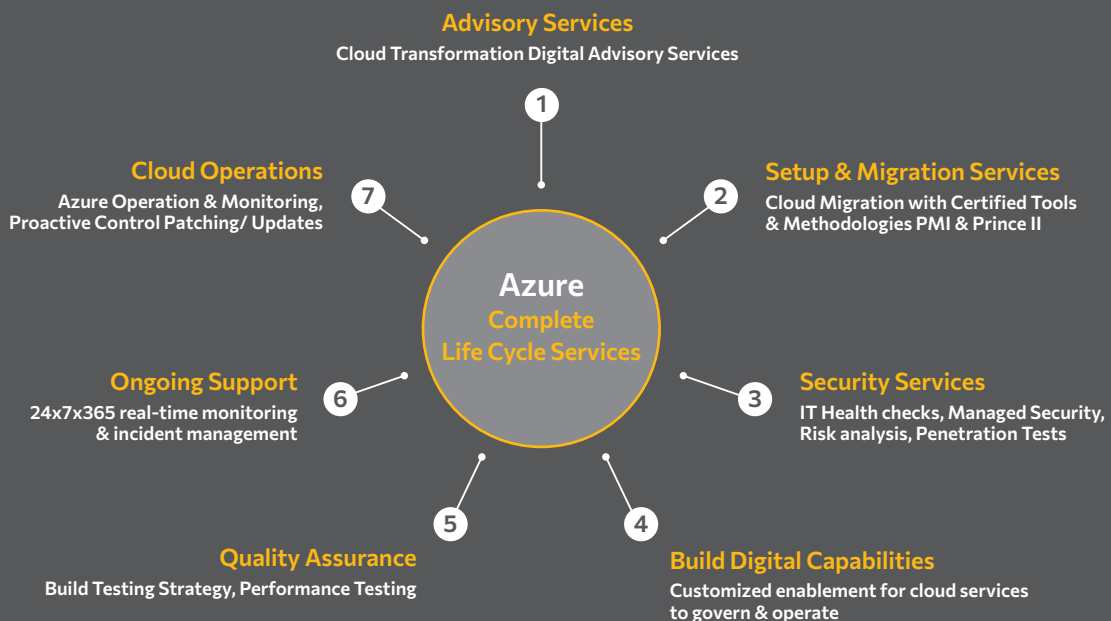

Services

These recognitions coupled with our experience and tech capabilities on emerging technologies provide an unmatched customer experience to existing and new customers, through the creation of a number of comprehensive solutions, tailored for our clientele.

Solutions & services portfolio

Uni Systems inspires its customers to drive the future story of their business through unique perspectives and constructive disruptions. We strive to co-create, accelerate, and deliver a digital transformational journey built on deep customer knowledge and empathy.

Programs & Benefits

Our unique expertise has granted access to exclusive Microsoft programs and resources, tailored to our clients' needs. These offerings include end-customer investment funds, complimentary workshops, and assessments, all aimed at empowering our clients to evaluate and align their current innovation practices with their specific objectives and requirements.

Our differentiation point lies in our cloud strategy and execution. Leveraging our expertise in this domain, coupled with emerging technologies and innovative business models, we provide value creation services that are precisely attuned to our clients' strategic imperatives. Through a meticulous understanding of their business landscape and objectives, we craft tailored solutions that not only address their immediate challenges but also lay the foundation for sustainable growth and success.

By harnessing the power of these exclusive Microsoft programs and resources, combined with our deep-seated proficiency in cloud strategy and execution, we offer our clients a unique opportunity to embark on a transformative journey. A journey, characterized by enhanced efficiency, agility, and competitiveness, ultimately enabling them to stay ahead of the curve in today's rapidly evolving digital landscape.
