UDT Desktop in the Cloud

Managed Virtual Desktop for the modern work-from-anywhere experience

UDT

UDT Desktop in the Cloud

Windows Virtual Desktop

A comprehensive, highly-secure desktop and app virtualization service running in the cloud

Reduce costs with the only virtual desktop infrastructure that provides multi-session Windows 10.

Offer a personalized, role-based experience for individual users with single-session deployment.

Gain an environment optimized for Microsoft 365 including familiar Office apps and Microsoft Teams.

Seamlessly run existing line-of-business software, Microsoft 365 productivity tools, and apps from Microsoft Store in the same desktop.

A comprehensive cloud managed desktop experience

Optimized costs

End-to-end security

Modern remote experience

Simplified management

UDT

Optimized costs

Save IT management time and money by hosting apps, data, and desktops in the cloud.

Provide a full desktop experience on low-cost devices.[1]

Give all employees a full Windows 10 experience at multi-session pricing.

Control deployment costs with low-cost or existing licencing.[2]

Replace costly on-premises infrastructure with flexible, scalable pricing for cloud services.

1. Internet access required. 2. Deploy Windows Virtual Desktop at no extra cost with Microsoft 365 licenses or qualifying Windows 10 licenses.

End-to-end security

Support security and privacy by keeping sensitive data in the cloud—not user devices.

Stay ahead of evolving cybercrime and changing regulations

Protect your virtual desktops worldwide with Azure Firewall for Windows Virtual Desktop, an integrated cloud-based network security service.

Safeguard your business with global multi-layered security on Azure.

Identify and respond quickly to threats with real-time global cybersecurity intelligence.

Modern remote experience

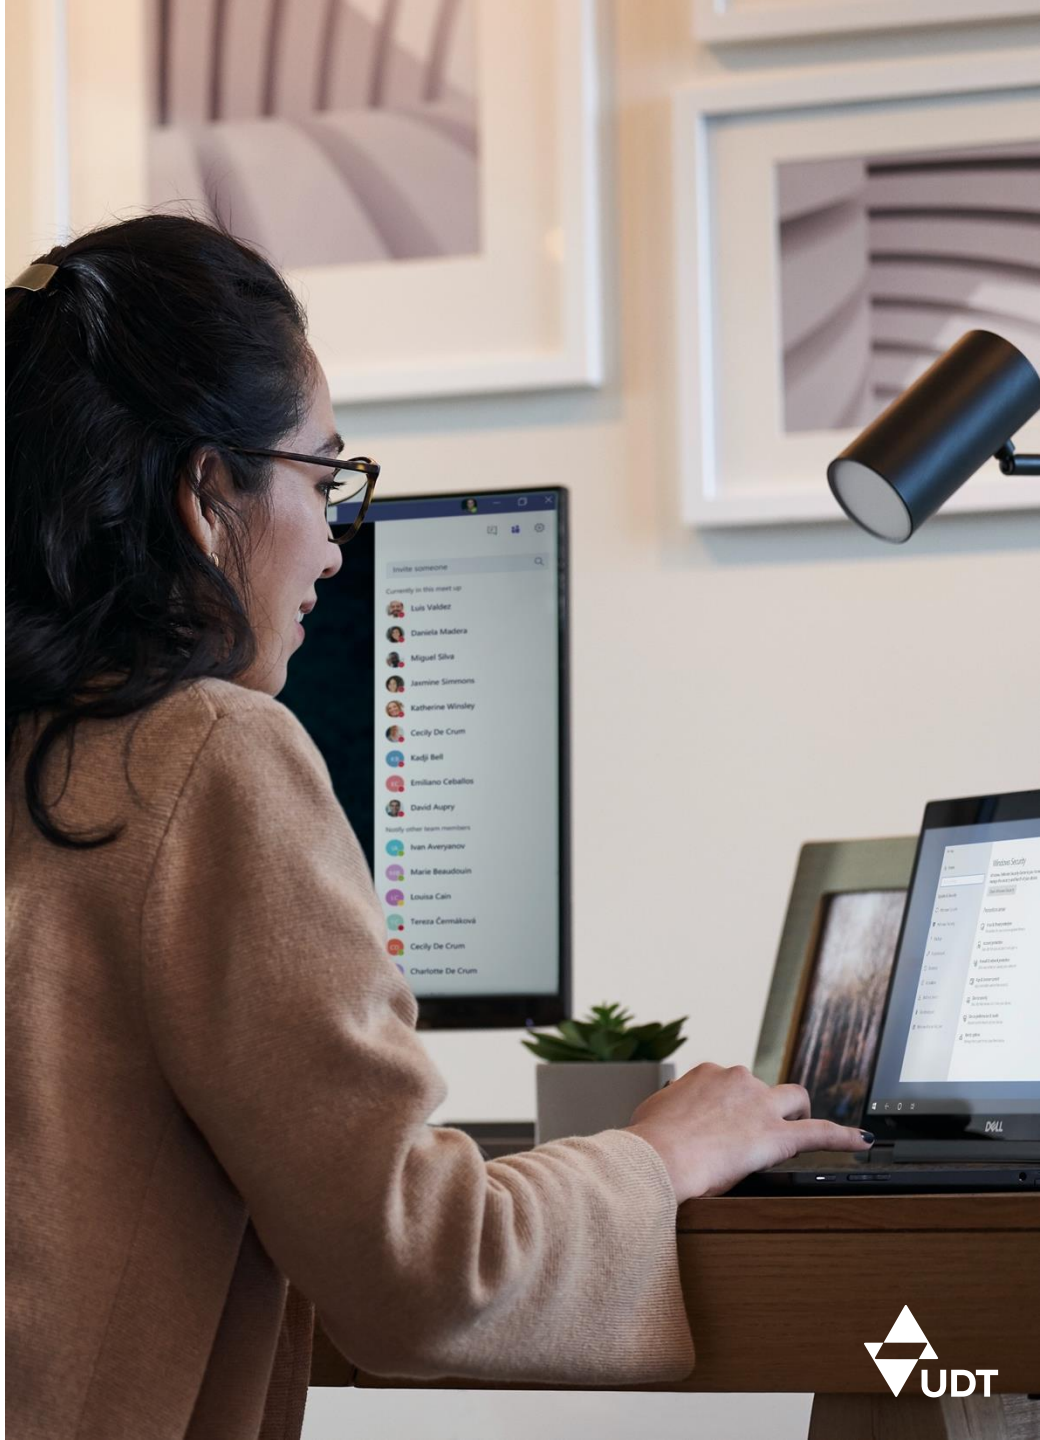
Enable seamless connection to your full desktop virtually anywhere—including your line-of business and familiar Office apps.

Enhance collaboration and productivity with the latest Microsoft 365 tools including Microsoft Teams.[1]

Take advantage of your favorite lightweight, low-cost devices.

Provide a personalized, role-based experience with easy setup through the Azure portal.[1]

1. Subscription required.



Simplified management

Reduce IT complexity and save time and money for value-added initiatives.

Streamline management of users, applications, and devices with simple cloud tools.

Keep mission-critical workloads and users active by reserving resources or advanced processing power.

Accelerate cloud adoption on your own terms—migrate existing workloads and integrate new features as needed.

Deploy and scale workloads on demand in minutes.

A Robust, Customized Solution to Many Use Cases

Elastic workforce needs like remote work, mergers and acquisition, short-term employees, contractors, and partner access

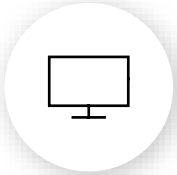
Security, compliance, and regulation applications like financial services, healthcare, and government.

Specialized workloads like design and engineering, legacy apps, and software development test.

Mobile users, call centers, and branch workers. Specific workforce for bring your own device (BYOD) environments

WVD Licensing Requirements

You may already be eligible for WVD!!



Client

Customers are eligible to access Windows 10 single and multi-session and Windows 7 with Windows Virtual Desktop (WVD) if they have one of the following licenses*:

- Microsoft 365 E3/E5
- Microsoft 365 A3/A5/Student Use Benefits
- Microsoft 365 F1
- Microsoft 365 Business
- Windows 10 Enterprise E3/E5
- Windows 10 Education A3/A5
- Windows 10 VDA per user

Server

Customers are eligible to access Server workloads with Windows Virtual Desktop (WVD) if they have one of the following licenses:

- RDS CAL license with active Software Assurance (SA)

**Customers can access Windows Virtual Desktop from their non-Windows Pro endpoints if they have a Microsoft 365 E3/E5/F1, Microsoft 365 A3/A5 or Windows 10 VDA per user license.*

The Benefits and Flexibility of Azure Pricing

Pay only for the virtual machines (VMs), storage, and networking consumed when your users are using the service.

You have the flexibility to pick any VM and storage options to match your use cases.

Take advantage of options such as **one-year or three-year Azure Reserved Virtual Machine Instances**, which can save you up to 72 percent versus pay-as-you-go pricing. Reserved Virtual Machine Instances are flexible and can easily be exchanged or returned as needs evolve.

UDT

Desktop in the Cloud

ADOPT A SECURE, SCALABLE, WINDOWS VIRTUAL DESKTOP SOLUTION FOR THE MODERN WORK-FROM-ANYWHERE EXPERIENCE.

ENVISION

- Business motivations
- Success criteria
- Stakeholders and responsibilities
- Security and Risk management
- User personas
- Existing Azure core components
- Current Licensing qualification
- Change Management plan

ENABLE

- **UDTSecure** Solution Design for Azure and Microsoft 365
- Shared and Personal Session Hosts
- Images and Applications
- User Profiles
- High Availability and Continuity
- Scaling Automation
- Deployment execution and testing

ADOPT

- Controlled production Pilot
- LoB - User Personas validation
- Performance Validation
- Rightsizing and Benchmarking
- Full Rollout and Adoption
- Documentation and Knowledge Transfer
- Operations Handoff

OPERATE

- **UDTEdge** Managed Service offerings
- Monitoring and Maintenance
- Update Management
- End-User Support
- Cost Management
- Governance optimization alignment
- Next-Feature planning and design
