

Microsoft Teams Meeting Rooms

Maksys Technologies as a Microsoft Gold and MRPP partner, provides fully integrated Microsoft Teams Rooms. We deliver a full end to end service from concept, design, delivery, adoption and ongoing live monitoring and expert support.

Transform your meeting spaces (irrespective of size) into a rich, collaborative Teams experience that's simple to use, deploy, and manage. Start meetings on time with one-touch join, then instantly project to the display in the room and share to remote participants. Microsoft Teams Rooms experiences are designed with customers in mind. Every customer has unique needs, which is why Microsoft offers a breadth of options, including Teams Rooms on **Windows** and **Android** platforms.

Small & Huddle Spaces	Medium Rooms	Larger Collaboration Spaces
Using open space areas for impromptu, rich collaborative video meetings, whilst easily connecting with remote colleagues	Help presenters perform confidently and participants interact naturally in larger meeting spaces	Rich touch enabled collaboration directly connected via video to colleagues irrespective of where they are communicating from
16ft x 16ft, 4 – 6 people	18ft x 20ft, 6 – 12 people	15ft x 32ft, 12 – 16 people
