

# New Planner

Driving Business Productivity with Microsoft Planner

## Readiness Workshop

Facilitate a deep understanding of the impact Microsoft Planner can have on your business by bringing together decision-makers and the technology team to explore this powerful productivity tool together.

### What is the New Planner ?

The new Microsoft Planner offers a unique and unified work management experience. It combines the simplicity of Microsoft To Do, the collaboration capabilities of Planner, the power of Microsoft Project, and the intelligence of Microsoft Copilot into a single, straightforward solution that spans from individual task management to enterprise and professional project management.

# Join us and unveil the new work management!

## What is in for you?

A unique event where the visionary leaders of your company will meet with prominent technology experts. During two intensive days, you will participate in dynamic and personalized sessions that will reveal the incredible potential of Microsoft Planner.

## Premium features for step up a new level

- **Intelligent Automation:** Let AI handle task creation according to your specific needs, optimizing time and resources.
- **Alignment with your strategic objectives:** Configure OKRs and track detailed progress.
- **Advanced customization:** Critical path, board view, people view, different types of dependencies, and custom fields. We support your journey towards simplifying and efficiently managing projects.

## Workshop deliverables:

- **Personalized Needs Assessment:** We conduct a detailed diagnosis to understand the specific productivity and work/project management needs of your organization.
- **Microsoft Planner Demonstrations:** We show you live the functionalities and advantages of Planner, adapting each demonstration to your company's scenarios.
- **Exploration of the Art of the Possible:** We identify and prioritize people, use cases, and potential impacts through interactive sessions designed to unlock new opportunities.
- **Tailored Strategies:** We will deliver a detailed roadmap to address your organization's main use cases, considering strategic objectives, available licensing, and the involved personnel.

## Duration:

2 days.
