

App in a day

As a business leader, you need to react quickly to the changing market and cannot stay dependent on developing a software solution to do that.

With Microsoft Power Platform, you can build great business apps without writing code.

Digitise business processes

In this workshop, you will get a better understanding of how to work more efficiently and become more paperless.

With Power Apps, you will easily be able to build and deploy custom apps in both canvas and model-driven style.

App in a day

At the end of the training, you will be able to:

- Create custom business applications without writing code
- Build sophisticated business processes and complex data relationships within your applications
- Connect your app to a variety of data sources to bring it to life
- Share your apps inside your organisation in a secure way
