

OVERVIEW

VESPER, Valorem's Guided Procedures, is a 3D instructional application which replaces conventional 2D instructions or costly in-person training with a customizable step-by-step experience.

Cloud-based storage allows for global reach and time savings, particularly with the creation and management of work instructions.

WHO CAN BENEFIT?

Any industry where front-line workers are essential to the business:

- Healthcare
- Automotive
- Agriculture
- Education
- Energy
- Food service

ROI OPPORTUNITIES

- Process Improvement
- Error Reduction
