About Valto

Who we are…?

Valto are Microsoft Gold Partners that only specialise in Microsoft Technology. We strive to understand and learn the best new technologies available and how they can help our clients.

What we do…

Using our unique IT Strategy and Roadmap planning we understand your business and objectives like no other company and use this to help build the perfect IT platform for your business.

How we do it…

Everyone at Valto has spent years working with clients and understanding their business. Over time we have built the prefect methodology based on fact finding workshops to perfectly understand your business and how we can apply the latest technology to help you.

Our philosophy…

Valto has been built on providing the best employee and customer experience possible. Everything is built around a blueprint for employee and customer success.

"Valto must be the best place to work, our team members will be mentored and trained to provide the ultimate customer experience. This will in turn help us to grow and help our clients succeed."

Technology is forever changing, as is the way that we do business. Valto work towards keeping up to date with all advancements in technology, this ensures we are recommending the best solutions to our clients.

Our objective…

We aim to be the best technology specialist in the world. Our unique approach and fanatical customer service will enable us to become one of the most successful IT companies that helps our clients build better business using the best technology available to them.

Our clients…

Valto work with a huge range of organisations across the UK including Chester Zoo, Human Appeal, MS Society, LNER, Oxbury Bank and many more. See our clients page for more information.

Awards

Frameworks

Valto are currently on the following frameworks:

- Microsoft 365 Commercial Marketplace & Power App Store
- Sell2Wales
- GCloud – We are expected to be approved on this platform by September 2020.

Microsoft 365 Security Services

Microsoft 365 Security Assessment

A security assessment of the Microsoft 365 Environment checking all services within the platform and covering off additional tools available in your organisation to assist with the security.

The output of the workshop is a report that outlines the following key areas:

- Security Assessment of all Microsoft 365 Security Services including:
  - Issue
  - Proposed Fix
  - Impact on Users
  - Effort required to resolve
  - Costings for Valto to resolve the issues
  - Licensing Impact
- Proposed Phases including timelines and costs to resolve the security holes

We've completed our security assessment workshops across a number of industries including Financial, Regulated, Governments and SMES.
