

Var Group Microsoft 365 Cybersecurity Assessment

We share with the customers an in-depth understanding of the opportunities available in their environments to improve security and productivity, reduce costs, and optimize investments.

Strengthen your security strategy with Microsoft 365

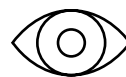

As your organization expands and evolves in its digital estates, with new apps, data and devices, having an integrated approach to security is more important than ever.

Designed for today's security leaders, the Var Group Cybersecurity Assessment focuses on analyzing the present state of vulnerabilities and current security posture.

What you will get of the service

Focused service dedicated to your security needs..

Clarity On how Microsoft can help you improve your security situation and optimize your costs.

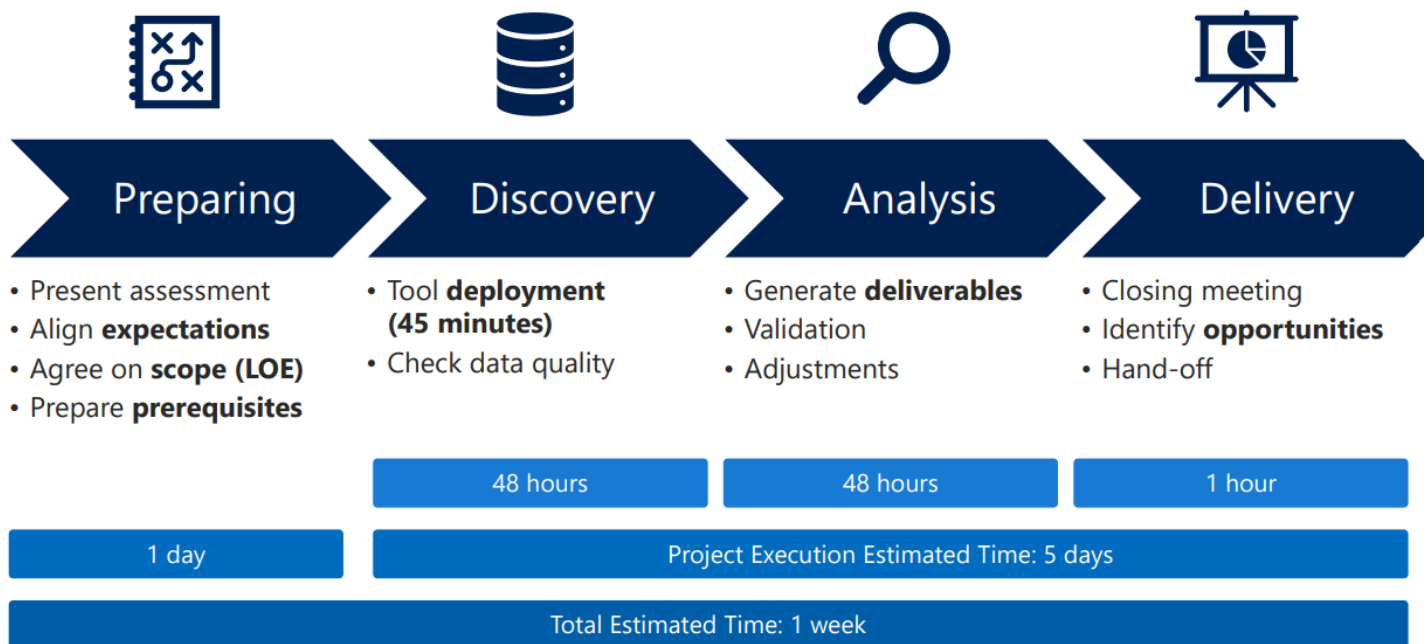

Report share the information with configuration gap and remediation plan

"If security is made difficult, people could work around the problem. With Microsoft, we get native functionality, visibility into our operating environment, and simplicity for all employees."

Simon Hodgkinson, BP Group Chief Information Security
